This doesn't work. I never got \$10. I go to my "wallet" section but it never loads. I think its a scam. I doubt they will give free \$10 and just loose money

if you actually read the post, you are required to buy the ad package with the \$10. then you can cash out with the money you made from the ad package. please do some research before accusing it as a scam.

I signed up under your refferal link, do you think you could PM me a guide on how to make money, your way?

Sonics - October 4, 2012, 3:49 am

I doubt it's a scam guys, its 642 alexa rank with 5 star reviews. However this should be in the refferals section.
