Thread: [\[FREE\]\[VPS\]Receive 3 128 MB VPS's!\[FREE\]\[VPS\]](#)

Do?s?Equis - September 7, 2012, 2:24 pm

Hey guys, so I'm willing to give away to 3 members 3 128MB VPS's to each person!!

How to get the VPS's

Step 1: Register [HERE](#)

Step 2: Introduce yourself [HERE](#)

Step 3: Post 5 HQ threads or 3 Tutorials in any section you like, just make sure each thread is NOT in the same section as the other one you posted!

NOTE: NOT POSTS, THREADS!

What Happens Next?

Once you register at the site, reply to this thread saying your username! Once I see who you are, I will keep an eye on you and see all your threads and posts. If you are really active, I might make an exception and give you the fourth place, but once you get the VPS, you will still need to be active, or else I might take it away.

In the end, the top 3/4 posters on the forum will get their VPS.

Good luck everyone,
Marco

PS: Don't spam the thread please, only reply to tell your username or to vouch etc.

Pissing me off.. Last 5 interesting looking titles have been these shitty threads. rant over

@OP - This was only partially aimed at you. Mostly at everybody who does these kind of contests to get traffic.
