Signature Maker v2.0 - Forum Signature Generating Software

- Create a Professional Looking Signature in Minutes
- Highly Customizable
- Includes more than 93 Cool Fonts to fit your unique style and 87 Extra Pre-made Themed Backgrounds

*To install the new fonts all you need to do is copy and paste the files to:

"C:\WINDOWS\Fonts"

*Use the Import feature to use the 87 extra pre-made themed backgrounds.

This is not Windows Vista compatible.

No Adware/Spyware - No Registration - Easy to Use - Easy to Remove

you can download it here

<http://www.signaturemaker.net/>

Rally the Bulls - September 24, 2008, 3:44 pm

too bad it isnt vista compatible =[
w.e back to photoshop ;]

Mr.Blank3 - September 24, 2008, 5:23 pm

going to test it out downloading now

Ughhh i have to say it This program has not been updated Since 19999999999

HÃ,Ã_ded Ã?rÃ,w - September 30, 2008, 4:33 pm

Thank you it worked very well for me.

Dan© - September 30, 2008, 6:34 pm

Sounds cool, downloading it right now.

Brandonn - October 1, 2008, 6:57 pm

Rofl old but its a good find. thanks

MiNd-FuCk - October 3, 2008, 9:19 am

nice, also 1 worth a look is an online one www.cooltext.com not as advanced tho but i use it alot for heading and stuff, i made my current sig with it
