Thread: [\[HF Userscript \] Maximum Image Size \[V 1.0.1 \]](#)

_DeNy - September 7, 2012, 11:49 pm

This script stops insanely huge images from taking up your entire screen by setting a maximum width and height for the image, chosen by you.

The width and height can be configured in <https://hackforums.net/usercp.php?action=options> at the bottom of the page.

I'd also like to thank [William Murderface](#) for giving me the idea to make this script.

<https://hackforums.net/showthread.php?tid=2842761>

How to install:I recommend Firefox with the Greasemonkey extension or Google Chrome with the (REQUIRED) Tampermonkey extension (REQUIRED).

Firefox: <http://userscripts.org/about/installing>

Opera: <http://www.howtogeek.com/howto/3986/set-up-user-scripts-in-opera-browser/>

Internet Explorer:

<http://www.ghacks.net/2008/11/16/install-greasemonkey-scripts-in-internet-explorer/>

Google Chrome / Chromium: Install [TamperMonkey](#) from the Chrome Web Store. Then follow the instructions for installing under FireFox.

Script:<http://userscripts.org/scripts/show/145132>

Changelog:1.0.0 - Script Created

1.0.1 - Fixed a small bug that didn't allow larger images to be resized due to the page not being completely loaded.

If something isn't working, please let me know in this thread. :)

Also, don't forget to check out my other scripts!

Whoa you are some good user script maker. I would definitely use it.
Thanks.

Mr Kewl - September 8, 2012, 12:31 am

Great idea of the userscript, I might install to try it.

_DeNy - September 8, 2012, 9:39 am

Thank you both for your feedback. :)

If anyone has any problems, let me know.

I'll make it work with classic-view mode when I've got time.

_DeNy - September 10, 2012, 9:41 pm

Updated to version 1.0.1.

What's new in this version? Fixed a small bug that didn't allow larger images to be resized due to the page not being completely loaded.

eJaku - September 10, 2012, 9:58 pm

This seems nice man, that thing was annoying the sh*t out of me lol. Gonna try it out now.

Å¢? øf ???d?s - September 10, 2012, 10:28 pm

Looks like a really good userscript :D I'd download, but I'm lazy xD
