(Sep 10, 2012 12:03 PM)Inspire. Wrote: [\[CITE\]](#) I just read this over. It is informative, includes many pictures, is well written, and is INSANELY easy to do. Not like it will take only 10 mins easy, but it will only take 2 mins easy.

It looks very promising, and I will be trying it out.

If it works, which I don't see anyway how it can't, then this is an amazing method.

Note: If this method ends up working, I would suggest only selling it to a VERY limited amount of people at a higher price. It can be saturated.

FAQ:

Q: What is this method about?

A: That's where you pay for ;) However I can tell you that it does not depend on your social skills and that the method is unknown. Also the method is well described and you'll get full support!

Q: What Twitters can I jack with this?

A: This is by far the most asked question. How more unique the username how more likely you're able to jack it (the username @teacher will probably be jackable, the username @teachermatt76 probably not). If the accounts are famous and still being used with alot of tweets your chances are lowered by far. Words from the dictionary are the most vulnerabale, followed by last names and first names too. However you you need some luck. You will not be able to jack any username!.

Q: How many times can I use this method?

A: Unlimited, however using a VPN or Proxy is suggested.

Q: What if I'm not able to jack the username?

A: Try again with another one, or ask me if I can get you the right information you need. However by buying you agree that there will be no refunds.

ToS:

no refunds. evah. (But full support included)

Any proof that your method actually works?

+Awesome - September 10, 2012, 11:50 am

You should instead get me @Awesome, and I'll pay you 10\$ for that. ?

Either give a vouch copy to some one, or jack a nice account for proof.

I've got @redeem using my method which I recently sold (it is also the example used in my ebook). However I have to confess that it can take up to 1-2 weeks to get your desired username.

2 vouch copies have been given away. Please don't beg anymore. (:

Thank you Inspire for your review. There is no way this can get saturated since Twitter is legally required to do this. ;)

I had recieved a copy of the ebook by AFRO , He explains pretty well the method including examples and pictures , I have tried this out and waiting for the twitter team to reply , Overall it's a great e-book , extremly well-written and easy to understand . .

Overall this looks like a good method.

I would like to check over it if you're still looking for reviewes. GLWS

Fat cats - September 10, 2012, 12:55 pm

Lol just email twitter saying its very inactive and you would like the name.

Sonics - September 10, 2012, 12:59 pm

Get me @Sonics and i'll give you \$20 I already had the account unbanned.

No, definitely not. It involves a different unknown method.

Hmm, well the response is asking for an email that belongs to the website.. So, it doesn't look like it's working. OP, PM me if you have a solution, and I'll change this.
