Thread: [Tekkit nuclear reactor build contest! \[Cash reward!\]](#)

Jeremy Corbyn - September 11, 2012, 10:37 am

Welcome everybody to my nuclear reactor contest! Rules:

I am allowed to use your world on my server

You must email me your world

Things the reactor must have: Automatic shutdown

Must be fully automated

I must be able to control the output. So say someone pays a diamond for an MFSU full of energy, I put a wire leading to their house and then type 100 and the house number into a computer and it will stop sending energy at 100.

Prizes: VIP on my server when it is ready

5\$ via PayPal Things you will be judged on: Reactor output

Design

Features Submitting:

Zip your world save and send it to:

boltonjoseph@ymail.com

It must be compatible with the latest version of Tekkit!

You have 2 weeks.

Oh and this has been posted on other forums.

So you want us to make you a nuclear reactor? -.-

I can design you a nuclear bomb if you want.

Already done all of what you stated lol

'tis was back in the day when the world size was 1 gig

OFC tekkit being glitchy at first the world corrupted and chunks moves positions.

You could try to build it again.

You might win.
