Thread: [\[Freebie\] Admin to Radio Talk Show \[/Freebie\]](#)

Kr4z1 - February 23, 2010, 2:36 pm

Ok so i jus gain accessed (thru several vulnerabilities) to a radio show's server on the internet. You have the ability to change/ban/log anything you want from this admin panel. Use the login url/credentials i provided below the picture of the admin panel =). happy hacking :D

Spoiler ([Click to View](#))

Code url: <http://sc1.pcr.fast-serv.com/>
user: admin
password: tampa9bay

Bizcrack - February 23, 2010, 2:46 pm

Cool, what's the URL?

I would like try try SQLI it my self.

Edit:

Nvm image just didnt load for me.

lol how you hack it ??

you hack root ?

and find radio folder

or?

thanks broski <3

RRRoooRRR - February 23, 2010, 3:33 pm
How did you find the vuln? where was it, and how you do it?

Ill be waiting for the method. Thanks for sharing man really.

i use a private perl scanner that scans for SQLi/RFI/LFI vuln's thru several different search engines. It was done with a union all injection attack.

?????-?u??? - February 23, 2010, 4:01 pm
Doesn't work anymore.
It worked about 10 minutes ago lol

Kr4z1 - February 23, 2010, 4:04 pm
lol sorry guys. some1 must have fucked around with the ban options. more will becoming later on.
