Thread: [Any websites that sell cheap gadgets/phone covers](#)

Hey! I'm not sure if this is the correct place to post this but I just had a quick question: does anyone know any good websites for cheap gadget like things for example: iphone cases, flash drives, little LED torch like things, anything really.

My boyfriend and I are starting a little stall on weekends to sell things at a local market and we are interested in buying bulk items but just need a good trustworthy website and would love any websites you guys could give me. :)

We have already brought some stuff from eBay sellers but we are sure there would be something better available.

TL;DR: Any good cheap websites that sells bulk gadgets? ?

Best bet, get about 20 RedBulls, Couple bags of CheesyBalls. Put on Google Translator, browse countries like Pakistan, India. Do that for about a week and a half. You will probably find 2 goodish items.

Peace Out.

I would also love to know this answer, my girlfriend and I are setting up a stall as well! And we've been planning for about 2 weeks now! :) Anyone got any ideas to what is a good website?

Holograf, I really don't understand what you mean by what you said. Can you explain a little more?

I'd go to some chinese website...

Lightake or dealextream (?)

tinydeal or dealextreme will be my first choice.... i found many people buying those goods in bulk from those sites and selling for double in ebay...

dealextreme

hands down. if you order in bulk you get cheaper prices too.

Definitely dealextreme, they are slow as fuck with shipping but you always get the product and it's cheap as chips

I thought this section got deleted but it was just moved lol.

dealextreme is good like others have said.

there is also this place

<http://bensoutlet.com/>

I have never bought from there though so idk how they are but you might be interested in checking them out.
