has anyone hacked this login page of admin?

how to hack it i have access to admin page login i don't have any idea how to login it.

i used sql injection " or "1"="1" -- first time it worked.

next time they got the access back and now i am not allowed with sql injection please give me an idea how i can access it again.

hello where are you guys please anyone can help??

moe00 - September 17, 2012, 11:24 am

hello everyone i am still waiting response why no one responded yet is what am asking so hard to find a solution to? lol

moe00 - October 2, 2012, 3:53 am

why no one is answering for god's sake ??

VoidEx. - October 2, 2012, 4:01 am

What are you talking about? What website?

Also they have patched the vulnerability so you might not be able to hack them again.

Please take a moment to write a decent first thread then more people will answer you.

SUPER CHAMP - October 2, 2012, 4:20 am

try a full sql injection..or use havij to help you.

moe00 - October 4, 2012, 11:52 pm

super champ what do u mean by full sql injection.

i used havij, i went to admin panel but cannot login again using sql
