Omni said he is not selling anymore groups.

<https://twitter.com/HackForumsNet>

I was gonna buy one.

He said "That's it. No more custom user groups being opened or sold. I'm done with them. Existing groups are all that's left."

Yeah, already reported. It's about time if you ask me.

I'm not surprised. The current usergroups basically cover every aspect of the site already.

Personally I think a custom user group is a waste of money.

I've been waiting for this since the 3'rd group was purchased.
Kind of got out of hand after awhile.
