Thread: [\[Template\] Company Banner](#)

trc_ - February 24, 2010, 6:44 pm

Here's another template I've decided to make for HF. Again, this is mainly for ideas in creating your own work. But you can use this if need-be. Also, if you do use this template, please give credit. For the record, this isn't my best work ever, but I tried and that is all that matters. :) Thanks.
