TheGoodLife - September 19, 2012, 5:28 pm

Leet Media is looking to create a brand, a label for an elite group of developers, and programmers to use as not only a group portfolio by as a brand we can develop together. Something to be known for, something to be proud of being a part of.

Leet Media will be creating group projects, and we all share the same goal of being successful, and making money.

Skills(HTML, CSS, PHP, ASP, etc):

Why you would be an asset to Leet Media:

Can you show us previous work?:

dogfuker - September 19, 2012, 5:34 pm

Name: Jake

Age: 18

Country: United Kingdom

Skills(HTML, CSS, PHP, ASP, etc): HTML, CSS, PHP

Why you would be an asset to Leet Media: Would love to stop wasting time on low baller websites and do something constructive.

Can you show us previous work?: jake.asia is my current fad. - Designed and coded by me.

Bean Dip - September 19, 2012, 5:35 pm

Name: Sheets

Age: 16

Country: US

Skills(HTML, CSS, PHP, ASP, etc): html,css,php

Why you would be an asset to Leet Media: Be a fucking G

Can you show us previous work?: Nope, its all for customers

+iPokemon - September 22, 2012, 7:49 pm

Depending on how busy school can be during a week will affect my online time, just a warning.

Name: iPokemon

Age: 16

Country: U.S.

Skills: (X)HTML, CSS, Javascript (+jQuery), PHP (implied with SQL)

Why you would be an asset to Leet Media: Hardworker when I am motivated and know what I'm doing. Grammar Nazi.

Can you show us previous work?: [plmq](#) designed & coded by myself [image & file host]

[Pokemon Sigma](#) designed & coded by myself [pokemon online game]

Those are the only ones I have online right now I think.. but check my coding service thread for vouches and such for client work.

BanditDev - *September 24, 2012, 7:39 am*

Name: Blueprint

Age: 18

Country: U.S.

Skills(HTML, CSS, PHP, ASP, etc): HTML, CSS

Why you would be an asset to Leet Media: I am dedicated to everything I start, and I think we can all learn new things from others on the team.

Can you show us previous work?: Not atm, just sites that were made from learning(tutorials).
