Thread: [\[FREE\]{GET YOUR OWN WEBSITE}Doing free website building](#)

UnixGhost - September 20, 2012, 11:30 am

I'm building small websites for FREE. This can include:Small Personal Websites

PPD Websites

CPA Websites(No Auto Postback)

Website to show off your program

Any One-Page website

Here are the rules:You can't be selling something over \$10

Websites are Static HTML ONLY

If you are selling something, I get a free copy of whatever it is

If you are PPD/CPA Monetizing something, I get a free copy as long as there is no loss above \$0.50 to you

I reserve the right to deny this at any time

NO WEBSITES OVER 2 PAGES

Here is how to get this done:

Get Webhosting(I will use google sites if you want me to, so you can skip this step)

Get your domain name(co.cc is free)

PM me with the login info(none needed if you want me to use google sites) and the content you want(including logo, graphics, etc...)

Say THANKS(This is required)

superroff - September 20, 2012, 12:43 pm

Hey man I would actually really like this I will PM you with more info ok and btw its not PPD/CPA

ppdrocks007 - September 20, 2012, 12:46 pm

Can i please have a ppd site please , thanks sir !!

PMing you for more info now. I'll get started as soon as you reply with a link to the PPD file and a direct link to the same file.

I'd like to have a PPD site, if successful I will give you at least 25%.Also this is in the wrong section either: "website building"

Okay, I'd like to say that PPD sites will take longer. I'll PM you soon with more info. Also, I won't ask for the offered %25 rev share, I have a way to earn a bit without you loosing any money. First of all, for PPD sites, I'm going to ask you to sign up for cpalead using my affiliate link, which is all I need to get %5 of what you make without costing you a cent. Also, I'm going to reccomend that you sign up for hostgator.com hosting using the coupon code OMNIROCKSHF which will pay me \$50, even if you don't spend \$50. I'll PM you soon with this and more information.

EDIT: No, this is in the right place, although it is related to website building, it is a free service, so I chose the Free Services forum.

EDIT: 100th POST!!! WOO!!!! YEAH!!
