[Deface](#)

Hollywood undead <3

Grtz saxrold ?

lawl i make a misstake i deleted all files and my shell ;(

Fail...

Th3DON - September 21, 2012, 3:26 pm

Good job on the deface. I need to get back into SQLi.

Jae? - September 21, 2012, 5:09 pm

Never heard of the site in my life. I'm guessing this was a completely random target? If so, don't post them here. You will get nothing but negative feedback and it just makes you look like you have no skill, sorry to break it to you.

and possibly use as a private DoS shell :D

Savez - September 21, 2012, 8:30 pm

Pretty much what Jewel said but if its one of your first then its pretty okay, keep it up.

You could have just hidden the song you know that right? The youtube video wouldn't show.

phantom00005 - September 22, 2012, 12:00 am

Been to Hell is my favorite song. But nice deface!

message to short

Oh, Just making sure because it would look cooler (To me) If the picture was there and the music played mystirously.?

I have to make a better deface page

this one sucks ?
