Stop trying to get people to download your virus.
It's pathetic.

ItsFluffy - September 21, 2012, 11:15 pm

if this is a virus u risk getting banned
u shud post virus scans and images of products

"Rainy. - September 22, 2012, 12:17 am

If that really is infected, I hope he gets banned soon.

Dann?y? Khalifa - September 22, 2012, 12:32 am

yeah it's infected here, downloaded it on my old download pc, lucke me i didn't download it on this pc
anti virus went crazy

ItsFluffy - September 22, 2012, 12:36 am

has OP been reported yet if it's that infected?

YOLO SWEG - September 22, 2012, 1:13 am

well shit i didn't scroll down before downloading and running. Anyone got a good free antivirus for me?):

NaKitiMijasi???????????? - September 22, 2012, 1:43 am

nice man , this is really coool

Thanks

Yea ok - September 22, 2012, 2:23 am

To bad this is infected i really want a .rar password cracker.)=

zones12 - September 22, 2012, 2:24 am

1 MB for all those tools?

Fuck you.

The Expendables - September 22, 2012, 2:29 am

What a skid, Runned this in sandboxie. virus etc shit.

Dr. Michio Kaku™ - September 22, 2012, 2:33 am

It is just a malware/spyware.

Do not download.
