Please give me, Feedback and tips on what i should add/remove to make look at best. I guess when you download it you can customize it as you wish, but for future preference that would be helpful.

Mate it's to big to be a signature, max dimensions are 650x200. I suggest re-sizing it or making a new one. Your current dimensions are 800x340.

oh right. Sorry about that i didn't know the dimensions in the first place. Ill re-size now

Done, The dimensions are right now, Looks better to doesn't look as bodged tbh
