No bro we won't help you. You are new here and 1 post. You don't just go and ask strangers to kill someone, nor you ask them to hack something for you. Learn if for yourself or (which I recommend) go to school and work your ass of, get good grades and be proud of yourself.

OOOORR you can actually apply yourself to your studies and get good grades therefore making it so you dont have to cheat to attempt to get ahead in life.
