Thread: [OFFICIAL ? HackForums Freestyle Challenge ? Win a prize! \[WINNERS IN OP\] ? WEEK 3 ?](#)

Kenny West - September 27, 2012, 5:13 pm

Updates ([Click to View](#))**UPDATES:** This challenge is now official!

We have 3 judges and will vote on 11:59 on every Saturday, winners will be posted to the OP and after some fundraising money comes in, we will move this to contest and give out prizes!

Please subscribe to the thread and come back every week with your new freestyle.

Also, you are no longer limited to 4-lines, but if your post is long please upload it to Pastebin or somewhere else, you will still be accounted for!

We are also thinking about having guest judges such as staff or really HQ members each week.

Thanks for participating in the freestyle challenge! Also, because all my comments are super similar, I will no longer be commenting on the raps only judging them. But, these are honestly, really great! This is my 400th post, let's make it count!

We are looking to get [?igo](#) to sponsor us and become a guest judge for week two! Click his name and beg him to be guest judge, thanks!

What's up, HackForums? So, everybody loves a good rhyme, right? Hell yeah, you do. So being as bored as I am, I decided to create a 4-line freestyle challenge. As you have to do is type 4-lines that rhyme and a winner will be decided ever week. Please only post ORIGINAL, NOVEL content because I will search the lyrics. Just try to be as creative, funny, or real as possible. I guess I'll start:

My name may be Google
But don't forget the plus
Death Disturbance is the only
HF member I don't trust

Yeah, that was terrible (S/O to Death Disturbance), but we can improve. Why are you still reading? Get to posting!

Truly think you can freestyle?
You honestly stink and you smell like old bile.
Better not blink cause this is gonna be vile.
I'm harder than zinc. Your gonna get riled
When I'm done with this ink I'm gonna smile.
Will send you a link so you'll feel the pain for a while.
Have yourself a drink, no need to be hostile.
Did I make you sink? Just give me a dial.

Smex - September 27, 2012, 9:02 pm

Alright I came in here just messing around.
These rappers are a bunch of clowns.
Everybody taking an hour to come up with one rhyme.
While I spit right off the top of my mind.

Into my conclusion.
It's time to make a resolution.
Gone with my illusions.

Deju vu? Not an option.
Iv'e yet to formulate any concoctions.
Better yet I'm about to blossom.

Coming from the depths within.
I will leave you with this little tip.
Think of it as my final hint.

As the time past I become bitter.
Imagination running wild.
The dreams turning into figures.
All my life I lived in denial.

Scream fuck this shit as I slip away.
Why the hell did I live this way.
My final thoughts at the end of the day.

I just got dark up in this S#%T!

Since I'm spitting shit that you can't even make

So before you say I look up my rhymes don't start to hate

The top three raps that blow my, and the judges, mind will be considered in as top raps of the week. We will then rate them based on many catergoires and the one with the highest average wins. This means your rap can be two lines, 4, 6, 10, 50, 100, how ever much you want to input. Good luck!

Standin' on the corner of Rose & 32nd
Watchin' 2 bros doin' some trainwreckin'
Slide up beside 'em like I own the whole place
And the bro on the right got a look on his face

I check it and shrug and pulled my own bag
And dem bros new right off it wasn't no shwag
The smell came up & punched the left one in the eye
And he said "Was up, my bro, wanna get high?"

I packed up a bowl and he took the first hit
And said " Oh man, I think I know this shit"
I said "No way bro, this stuff's all mine,
A cross between widow and Texada Time"

whoaho, gonna smoke me a bowl
whoaho, better keep it low
whoaho, don't want da po po to know
whoaho, gonna smoke dat bowl

He said "Hol' up, g, got sumthin' you can try"
and pulled up a bag like an agent on the sly
"Grew this one in my yard usin' 40s for fert,
Jus' po' yo' beer on the seed in da dirt"

Looked pretty good, gonna give it a try
Taste like Banana Kush with a touch of Thai.
Then the dude on the right said "Forget about that"
And pulled out some dank from the rim of his hat

Whoaho, gonna smoke me a bowl
Whoaho, better keep it low
Whoaho, Gonna git real high
Whoaho, watch the days go by

So he looked up at me with a nod of his head
And said "Don't worry bro, this'll knock you dead
He took a tiny piece and packed it in a bowl
then handed it to me, but on the down low

He said "Now boy, this here's da Green Crack
Stuff's gonna cost ya 'bout \$60 a sack
Jus' go to Ching's Palace an' down aroun' da back
Give yo' money to the China girl wit da big rack

Whoaho, gonna smoke me a bowl
Whoaho, better keep it low
Whoaho, It's da OG Kush
Whoaho, Geeze, who am I kidding anyway? Im high and white... Just sounded like fun.?

Good Luck Everyone

I'm not quite feeling us anymore,
my heart is sore,
you left me out in the rain when it poured,
I can't forgive these aches that make up this sad place,
yet you still act straight as if im still in this fixed race,
don't try to lace your words,
they're absurd,
can't you feel the sorrow in my words as they land on the tip of your brain,
I'm steadily going insane,
your nick name should be bane as you destroy my main frame,
now I'm lost, taut, and about to be nailed into the cross,
for thee, I'm going on a killing spree,
to get rid of everything you meant to me,

I'm free, a new me, arousing from nothing,
Always learning something everyday,
on that shit as if I'm getting paid,
don't need help,
I stay homemade,
still don't follow my ways,
they're unique and they make you think,
every time I blink my heart sinks,
It leaks like my liver after a night out,
I go till I'm passed out,
don't think I didn't for you,
but you flew into the blue,
left me like tool, that's minuscule, we had perfect rules, how can you be so low? It hurts me so, but
things come and go,
now vanish into that dark hole,

Bang

Right now everyone's claiming the blood and crip gang

Will rip you apart like we're in wolf gang
And if you step to me your apart of the food chain
See man I really spit flame

peek - September 29, 2012, 9:38 pm

Going through school,
forget the rules,
you needa do what you gotta do,
it's all in the mind,
stay above the unwritten lines,
fuck it going hard to the day I levitate,
give me that pen so I can alleviate,
times will get harder,
but you will be smarter,
life will bring anything like flipping a quarter,
taking down everyone like I was a martyr,
I'll jump start ya with lyrical flow,
I feel as if I'm a miracle that's gunna blow,
you're still on the streets like a hobo,
that's a nono ... we in a recession,
I got my money so I'm still in this session,
take you down with my smith and Wesson,
did I forgot to mention,
we're warping to a new dimension,
I got the suspension to take on any terrain,
doing drugs to suspended the pain,
I must be addicted but I can't cope with out the rush,
I'll make your world combust, with just one flush,
fuck no compassion,
destroy the nwo with a passion,
solve it like a fraction,
cut it up call that abstraction,
I will not be detained,
only thing is you'll be rearranged,
opening up your brain like I was a locksmith
everything you hear in this world is a myth,
I stay bliss until... I'm hitting you over the head with this empty fifth,
snorting stardust like it's a part of us,

I'll be gladly to open up the crowd so they can hear my sound,
I'm going to the end of the fucking 12th round,
you can't comprehend what I send,
this president need to be apprehend,
where's the revolution?
Gotta the media talking it's all fucking pollution,
give me the mic and I'll spit the solution,
I'm the anti-biotics to you're confusion,
now here's the resolution,
stop innocents dying to military institutions,
fleets teleporting to the middle east like it's nothing,
but how can something be nothing,
shit where's the lord to save the universe that's so diverse,
but god is a fable because so how am I suppose label,
someone real when he's unseeable,
it's unbelievable,
especially when they fight by the sword
Not by following the words.. that's suppose to cure the mind,
but it's all misheard like these agendas need to be deceased,
instead of trying to fight a careless beast.. that's protecting there land,
c'mon fam,
I still can't stand to keep my sanity when America is causing these horrific tragies,
killing thousands to spread democracy in a country that's a fucking theocracy,
taking over call it occupation,
we have no right to dictation,
but it's what revolves around this nation,
kills my heart as I keep pacing,
but no one understands what is in our hands,
we got freedom so let that shit stand,
call me the patriot who fought against the tyranny in 1776,
I'll rebuild America with new bricks,
fuck all the tricks in politics,
you pricks make me sick,
fuck the sheeps who continue to roll the the boulder down this hill that leads to losing all our bills,
next thing we know we'll be the united states of landfill.

But really im the one that deserves the hot seat/
I point my finger at you and you scream "O NO NOT MEEEE!!!"
Stop g IM the new add on to the heat/
All i wear is that horse aka ralph lauren/
I dont understand your verses like its foreign/
Your borin and you needa step up/

Everyone in the forum over exaggerate
I got a cold energy flow
electrolyzed with carbohydrates
skids try to manipulate
every thread I make
participate in a thread where a kid tried morphine
he was only thirteen
what is this world coming to
everyone feels sin within
they feel like they're the center of attention
I need to re-enter to let free the tension
one more thing I forgot to mention
I'm going to win this contest I AM ON A FUCKING MISSION
But the decision is all up to the 3 judges
hope this clean flow doesn't spark any grudges
everyone in this thread should give up
and come back when you're not a preteen
your flow is gassed up, smokescreen
clouding up your mind with all those monsters you're drink-ING
it's not normal for someone to intake that much caffeine
scared of the sunlight so you put on sunscreen

Aye, yo, I used to have a girl, yeah my fucking world, I'd jump into a hurricane swirl then buy her a diamond and a pearl, but that wasn't good enough, I wasn't buff or ruff, and she thought I was to tough, but she always had me in her hand cuff, no way to run, but now we're done, earth just lost her son, of course it was fun, but some times my rhymes wouldn't be worth her dimes

...Not really, my friend Justin came up with that one.

Nigga, My name is Diego!
Poppin' on bitches, hot like Fuego.
See that? I can talk like a fucking spic,
It might look like shit to you, but it makes them bitches want the dick!
Dawg, you know my nigga Rob?
He treats this gig like a fuckin millionaire's job
The second the flow starts,
He takes them bitches' hearts.
It doesn't have to be more then a draft,
and he's got pussy covering his shaft

I'm so sorry. I tried.

Studying for this test,

It's bringing me all this stress,

I can't take this so I needa address,

Everything that's on my mind.. I'll put it into a few lines,

But I stay above the unwritten lines,

Not trying to be a sequel because.. I'm not equal to all these fictional characters,

Maybe I'm a loner or a stoner but I'm taking this shit home with a grand slam,

I'll flip the haters like ham,

Call me Sam I am,

We cool, it's just I don't fuck with you,

I know it's hard to tell, but you can't solve me like I'm an rubics cube,

This hoe, she loves the lube,

So I'll give the tube,

No inflating that bitch cause I'm not on the right track,

To face everything that awaits in this world,

Just got this, but I'm probably going to mess around more and fix stuff, but I saw no one posted anything... So here :)

I'm whiter than a poltergeist, chiller than the polar's ice
Sitting calmer than a geek, no speech on a Friday night
A picture of female has me stopped like i'm stupefied
I unzip into a fantasy while setting everything aside

At the club door trying to pass the Am I Cool enough test
With Hollister on, stating that i'm nicely dressed

I step up in the joint with my posture standing tall
When a pretty seniorita winked me posted upon the wall

I walked and slid her a kiss, a warm hand up her dress
Giving her hints for her to expect what was next
We ditched her geeky friends, like the brady bunch
Like the the cool-kids table at a high-school lunch

Things began heating when she asked for my motor skills
Tensing harder than my butt checks, constipated overkill
We agreed for the spot to be all over her breasts
I awoke to jizz-shots slamming on the wood of my desk

Not mad at all, want to rap battle me? :)

We'll see who the real rapper is ?
What determined your winner? There was no punchlines, no flow, all it did was rhyme. Half of it didn't even make sense. You sir, do not know rap.

And yes, this definitely is calling you out on a challenge :)
Don't pussy out if you "know so much about rap".

See personally I would have put myself peek and another rapper in top 3-5 but our judges are looking for realness not "Im gettin Paid" type stuff. If you want to show that you deserved to win - enter again.. If you don't - fine someone else will take the championship spot..

You think hatin on sucess is gonna get someone to sign you/
Sayin we suck and ur dope man who you tryin to lie to/
But wait a moment man I got some fly news/
Your dope - o wait thats a LIE VIEW/
See just ask Peek - huh im sicker than the swine flue/
If this is sick its diabetes n im type one and ur type two/
Stop talkin shit so than you might get an advantage/
You try to talk high ill drop you down to atlantis/

You'll be sinking just like the titanic/
But wait No punchlines boy thats historicle/
Your little taunting is just adorable and tells me nothin you'll do will be historical/
Ever since I started ive been pass you/
Ill play you a sad song then beat you with this glass flute/
Im not hurting you im just leavin a bad bruise/
You really are bad and thats just some sad news/
So actually start thinkin straight/
Once posted lets see if your defendin base/
Now you know im sick so you were just pretendin hate/

Now there's nothing left to sing

So lets go touch tits.

Tits are good, tits are good, tits are good

And stuff

tits are good, tits are good, tits are good

(Let's go drink some)

BEER, BEER, BEER, BEER, BEER, BEER

When they're warm, they taste real crappy

But cold nips will make me happy

When I throw-up on the floor

I get up and touch some more

<http://www.sweetslyrics.com/377331.Psychostick%20-%20Beer!.html>

I left the beer part in on purpose.

Beertits.

Why you wanna fuck with me?
Not my fault your girl's tarty.
Slice up your face
Leave yo ass scarred G.

Nerds go to comic-con

Stick it in your mum's ass
You put wallace & gromit on.

Imma win this shit hands down, no questions

Hand over over your kids.
Let MJ molest them! syke
You get horny when someone adds you on Skype.
I'll write a few more, but I can't be asked to type.
I'd call you a fat-ass, but you're just a no-life.

Thanks for the contest
My mum's got long breasts
There almost as long as
My aunt Paul's long legs.

Haha, what am I saying?
I don't know but I know you're all praying
coz i'm slaying all your asses
I'm the robot from family guy
you forgot your hall passes.

Oh my gawd
I just turned crazy
Don't jump in the circle
it's too late to save me!

I'm clearly insane
fucked in the brain
My voice is so creepy
I sound like Bruce Wayne
When he's wearing a mask
Just a quick shout-out
Bane can kiss my ass!

I wonder where we are going in this world that we call life?
As were killing each other for greedy needs by the knife,
and all this time I thought we were livin' the high life,
It just must be the beer I'm grasping so tight,
Till I dig deep down and think life devices me like these government officials from daytime to the night,
Then think to myself how can we live but not change our ways, this is our fight,
I mean what does it take for you to see the light?
The media spewing out bullshit like a pastor, no they're not always right,
and now we got the president signing acts destroying our liberty,
With all these broken souls layin' in poverty,
While we're looking for the next show to watch on the tv,
Though It's survival of the fittest, but when being oppressed it's fixated,

Maybe we're all belated,
and there's no chance to fix the mess that's been controlled since mayday,
Now we got another version of the Nazi third Reich, nothing is fucking right,
That's why I'm here to spread the message, instead of taking flight,
It's time we change up on the NWO and call an audible,
Fuck their absolute control, it's not inevitable
That's why it's time we turn up our treble,
and hear our voices from sea to sea, we'll take home the gold medal,
I'm on a mission to come up with some new sounds, maybe gain a crowd,
but I'm not here for the applause,
Only to fight for our prosperous cause,
and we'll take down their statues like Iraqi's did to Saddam,
You know this future war with Iran, Is just another Vietnam,
Knowing sanctions are the start of wars, why do put them on people front doors,
I'm at a lost for words, when people can't see past the teleprompting brainwashing preventive war officials,
We must take this to the streets one day and pop em' with our pistols,
I'm tired of hearing about who is shooting who with missiles,

[Intro]

I resurrect, time for a reelection,
Not a jurisdiction, or opposing neglection,
We're all puppets living in oppression,
So sit back and listen to these confessions

[Verse 1]

It's hard to sustain the conscious pain,
Underestimating fate, we are pawns in this game,
Explicitly listening to bigotry that has our current world in disbelief,
Believe never falsely,
Overly dependence particularly especially

[Chorus]

x2

This world has its presentations,
Affiliate and trust in your nation,
Realize and you'll see,
Not everyone is virtually naive

[Verse 2] (end)

Initiate the switch and shift a bit,
Change our thoughts from simplistic to rich,
Reveal what the third party perceives,
You may realize you can't proceed,
Reality is an intrusion of our illusions,
Indulge in our fantasies until we comprehend the worlds pollution

Gave me some ideas, thank you :)

I just recorded this, but I need to work on a lot: tongue twisters, the beat is overpowering, make sure I don't fuck up any words, make sure I pronounce everything correctly, better synonyms, and over all make sure I flow, but I thought I post this to see the difference after I'm completely done, and change up the lyrics a bit. Accelerating in the whip,
We packin a clip on the hip,
Getting neck, hands in the nip,
Fucking her like she havin fit,
While we drinking in the cockpit,
Call me a pilot, I'm off to it,
But I'm Lacking because I'm mackin,
Human trafficking, relaxin, listen to some beats that Ima be mastering,
Selling some shit that's disastering, here's the lease,

Stop at b's and cop the qp,
Ima monster ' call me sb,
Ripping the bong, I'm blowing that weed,
loud ass fuck you cant even hear me,
Passing the b around it's cherryied,
I'm in sight, shits bout get scary,
Body bag on that high-speed ,
Shit now you're worried?
Dig up a hole bitch stay buried,
Cops lurking, Bitchs flirting,
Not giving a fuck we're behind the iron curtain,
How am I certain?
Got connects, never hurtin,
Blowing up like London trains,
When will all this shit I spit change,
I was just seeing my range,
Now I'm coming with a new exchange, Blame society, we all act the same,
All trying to go for the fame,
But when I spit, it's to tame,
The minds that can't see past the main frame,
The truth is hidden in books,
No wonder I'm sitting here as a fucking crook,
I never took the time look,
But I'm coming with a right hook,
That's going down on this notebook,
I partook in a crime that's shit overlooked,
Shit I'm glad I never got booked,
My heart is a mainc'n that's now shook,
I took the wrong path, so I'm yelling at this bitch cook,
Don't need Jesus to tell me where I'll end up,
Not praying, cause I nut the fuck up,
You're gunna hear me like the twin towers were abrupt,
I'm witty and I'll pull the gauge demanding,
For money fuck waving your sage,
Good now we're on the same page.

Here is my latest freestyle verse in my 2 vs 2 battle:

Now I'm usually a gentleman but now I'm filled with adrenaline
To murder this bitch specimen staff member named Genuine
I mean he's so damn 'feminine' it's like he's pumping 'estrogen'...
He could spit as 'hard as bone' yet I'd turn his 'skeleton into gelatin'
Yea me and Vegas make benjamin's when Marsh and Gen are mexicans
Losing is in their regimen, my sickness need's more than medicine...
Now I've destroyed Genuine, I guess I'll rip it before Marshall starts
The way I mutilate leaving partial hearts is lyrical martial arts...
Me and these bitches aren't adjacent, their punches are old and ancient
Genuine spits weightlessness so he's easier to rape then a coma patient...
My opponents are basic, well Lemur is the fan favourite as the oasis
Be gracious I don't go rapist and bend you kids over like the matrix...
Your hallucination won't be an accident, quick call the ambulance
Me losing is just not possible like abstinence to ravenous savages!
I should go ahead and 'weed' these little bitches out like 'cannibus'
See little thugs, I'll 'limit' you, and I'm not talking calculus
I'll put you in paralysis, and still have you make me sandwiches...
And mow your lawn? Let's make this simpler, you are the visitor
We all know that only ghetto bitches have to sell their signature...
Genuine and Marshall are similar, as they both are negative integers
Well me and Veg spray like sprinklers, they bend over like prisoners
Come "Walken" up to me like "Christopher" and you'll seem miniature

I'll stop typing and use your dead body to become a calligrapher...
Genuine and Marshall have been as'salt'ed like chips with vinegar...

Look at your most recent one? It's passed the deadline for week three winners, your rap will be considered for week four. It doesn't matter that he's a judge.. judge's votes for themselves don't count.. the other 3 judges voted for him.

My rhymes are full of empty thoughts,
My body, full of Jägerbomb shots.
My ideas become stronger, relaxed is my mind,
Back to HackForums, back to my daily grind.

Robotchio30 - October 15, 2012, 3:53 pm

My intuitive rhymes are imminently ill
Aim for the heart and shoot to kill
Flat on your face, you're such a disgrace
Fuck you in the butt while singing amazing grace

Marilyn Monroe and me back from having sex
scientifically related what's a sister complex
floorboards squeek when my new sneakers sneak
too late to run away got to take a peak

Bree olson in's my bed im not right in the head
says she doesn't love me my heart turns to lead
but fortunately for rick theres a gun in the shed
shoot her in the face and pretend her name is fred

The amount of posts don't matter but the lyricism does matter...

You obviously know nothing about that section. Go check it, I'm undefeated, and have even beaten staff members (Omni and Genuine). Battle me if you think you can win ?

Conflexity - October 16, 2012, 7:30 pm

They call me Conflexity,
Smokin' only on the best of trees,
Buyin' OG by the pound,
You're dumbfounded by the sound,
Your wifey callin' me daily,
Wants to come and sip them bailey's,
I'm Old Greg. The End.

I see you're looking for a winner,
well, I must be just in time.
I stand before you as a sinner,
but that's just the nature to my rhyme.
Yeah, fuck this and fuck that,
Fuck wannabes and blackhats.
Fuck those who don't stay true,
Fuck you and your rhyme too.

I have nothing against blackhats. It was a perfect rhyme and went along with HF. ?

Hibernation - October 20, 2012, 6:06 am

This is food for thought like I brainstorm in the kitchen
Listen, I'm winning this whether its recorded, freestyled or written
I'm the missing link in this competition like a 404 page
Call this statutory rape, because most of the contestants are under age

peek - October 23, 2012, 10:31 am

Wrote this in class, bored af. Lol

I'm lookin' for a way out,
Education pushin' to self doubt,
Three strikes I hear the man shout,
Got parts in my life missin' grout,
It's leadin 'me taking strike outs,
Maybe I'm done?..
Or have I been over run?..
With all these insecurities,
What if I was son of the sun?
Get prayed upon by religions,
Then I'll feel like I'm not missin'
But fuck it, I got the fixins,
No need to be cowardly kissin'
At these fools that are on top,

I'm still gunna be dissin'
Cause I'm a man on a mission,
With a genine in a bottle,
That will help me with all my wishin,
I don't give a fuck aboutta tuition,
