Thread: [Can you DDOS game servers that have a ddos protection?](#)

Corrupt Solider - September 28, 2012, 11:11 pm

Left 4 Dead 2 has some servers that are DDos protected. I am very novice as hacking and dosing so is there away to bypass the protection and still dos them?

Aeternitas - September 28, 2012, 11:42 pm

Sure, there is always a solution! PM me for more information.

Sanitee - September 29, 2012, 2:03 am

Those times... The booters have found the ay already to break in. Well, for the one I'm using :)

bitshock - September 29, 2012, 2:05 am

Definitely. There are many ways to bypass DDoS 'protection'.

Doniu - September 29, 2012, 2:26 am

Why would you want to DDoS a L4D 2 server?

lime_attack - September 29, 2012, 4:29 am

You can do it if your DDoSing network is big/powerfull enough.

(Sep 29, 2012 02:26 AM)Doniu Wrote: [\[CITE\]](#) Why would you want to DDoS a L4D 2 server?I hate a guy lmao. he comes in my games and ruins them so i want to attack his servers.

(Sep 29, 2012 02:05 AM)bitshock Wrote: [\[CITE\]](#) Definitely. There are many ways to bypass DDoS 'protection'.Do you mind helping me out? or telling me where i could find one?

RE?UTATION - September 29, 2012, 10:05 am

if you are reffering to cloudflare as ddos pretection, yes there is a way to bypass it

BubbaD173 - September 29, 2012, 10:18 am

Man, there is a way to get passed just about everything. Very helpful. Thanks guys!

VinceNorris - September 29, 2012, 10:28 am

Accually any Server is Hackable, But i dont really know how to hack a protected Server, google it in? Powerfull Game Booter or something like that??

voidx - October 9, 2024, 4:43 am

Hello, I'm interested but don't know how to contact you. Please PM your Skype.

This thread is 12 years old, last time OP was online was 8 years ago, take care to this when you want to reply to a thread to avoid digging up old and not relevant threads.

Besides there are rules about DDoS, it's allowed to discuss about it only for educational purposes, or in the <https://hackforums.net/forumdisplay.php?fid=440>
