I have made a good amount of money from Social Engineering Amazon. The method that I use is fairly simple but there are several key tricks that one has to use in order to make it work. My method does not involve any Black Hat activity and is not illegal . I have made close to 1000 dollars using this method. I will share my method over skype. My skype is cardyboy22. I will gladly help you whenever I am online which is almost always.

Enjoy 1 month ban, this should be in Marketplace, read the stickies next time. Also I have 40 Amazon SE methods on my PC, I doubt yours any different.

It is a monetizing technique and should be here. I never said I am selling it.

Actually if he didnt edit the part where it says "we'll negotiate a price via Skype" I wouldnt say it should be in Marketplace either.

@OP great, act as if you didnt edit it 2 mins ago :D
