Number: Can I please have #4 even though #11 will probably win. (If 11 wins I get copy too? <3)

Why you deserve it: I used to get loads of IRC botnets, but then every time I bought one, they

would get closed & my money got wasted. This has put me off of buying them. And it's hard times right now. I'd really appreciate winning this contest so much. Also, I try to be as high quality as possible these days, I really love this forum & many people on here. I think of you guys as my 2nd family & Hackforums is my home away from home. ?

Even if I don't win, could I get a super nice vouch copy? I will love you forever + more.

Thanks. ?
