Thread: [\[Release\]Is my computer on?\[Free\]](#)

Isometrical - October 2, 2012, 6:37 am

Welcome to my thread!

Today I am going to show a program I worked on for a few months, the source code is intense and too legit for this community, if you would like to buy the source to it shoot me a PM.

Features:

- Tells you if your computer is on/off.
- Green Text!
- Sexy icon.

What is the use of this? Really.. as if people aren't going to know if their computer is on or off..

The Alex - *October 2, 2012, 6:46 am*

One of the most useless programs ever

Thanks, sometimes I find it hard to tell if my computer is on. Keep up the good work.
Suggestion: next version make it check if your computer is off too.

paulicask8 - *October 2, 2012, 7:09 am*

Awesome program, congrats!

PS: How i give reputation?
