Thread: [Premade booter help ?](#)

**I Love Baseball** - October 2, 2012, 5:13 pm

Could anyone help me? Sorry if this is the wrong section can find a booter section. Thanks very much :D

**tux1** - October 2, 2012, 5:23 pm

Well what do you need help with then?

**Vandal** - October 2, 2012, 5:46 pm

Do you mean a web booter with the source files? If so, you will need to buy an offshore hosting site as most free hosts will ban your account for making a booter. You upload each file to the public\_html folder on your FTP. There are some tutorials on YT, check youtube.com/hackforums for one. If not a web booter, sorry.
