Thread: [RDP brute force ???](#)

scrack - October 3, 2012, 4:49 pm

anyone can say me a program for use force brute on a RDP

MajinVegeta - October 3, 2012, 6:04 pm

Use Dubrute v2.1 . Its doubtless the best rdp cracking tool! all other tools are buggy.

TSgrinder is what I use, for cracking RDP terminals!

craig101 - April 2, 2016, 4:44 am

Pls help me i have alot of rdp ip and user and pass as well but I have been trying to brute force rdp's with dubrute. It's not working. is there any other program i can u with stressing myself

n3cr0 - April 2, 2016, 5:25 am

rdp bruteforcing can be noisy. There may be an easier way in what else do you know about your target? what have you done so far?

goingdownscreaming - April 2, 2016, 8:47 pm

Ncrack

ncrack -vv -d7 --user administrator -P /home/user/morto.txt 192.168.26.137:3389,CL=2
<http://carnal0wnage.attackresearch.com/2011/08/using-ncrack-to-test-for-servers-vuln.html>

metasploit.

<https://community.rapid7.com/community/metasploit/blog/2011/08/29/morto-another-reason-to-secure-local-user-accounts>

Try out ncrack first.
