Thread: [?\(2nd round\):Upgrade to L337:Contest for non-upgraded users!](#)

Jasmine? - October 3, 2012, 8:53 pm

Once again, I am here with yet another upgrading contest- round 2!

This is gonna be just like the first upgrading contest I did:

Tell me why you want to upgrade, and what you plan to achieve. Its that simple :D

Optional- L33Ts aand Ub3rs may reccomend a non upgraded user also. Remember to provide their link to profile, please.

Differences:

There will now be SIX winners instead of 4! Hint: Round 3= more winners ?

Proof?

Please talk to the users in this thread: <https://hackforums.net/showthread.php?tid=2903701>

This is my 3rd contest. Winners will be announced on a SEPARATE thead on October 6. People who tried on the first round may try again.

1st round here: <https://hackforums.net/showthread.php?tid=2894298>

This girl is LEGIT. Upgraded me and I love her for that. Good luck for all!

76ers - October 3, 2012, 9:01 pm

I want to be L33T because I have always wanted the respect, and I have always wanted to give more to the forum.

This would help me out a lot because it would make me more HQ and make my time more enjoyable on HF. I will also try my best to share knowledge on the sub forum

Thank you for doing this

Ambyr - October 3, 2012, 9:43 pm

What makes me deserve L33T: I need to become more trust worthy as being a L33T, and help other members or new members out. I'm very active, never scammed on HF, and have all positive rep, no neutral, negatives, or any scam reports, I gave away 2 minecraft servers, and I want to be able to post on Monetizing Techniques, but I need to be L33T to post in certain forums, and I need L33T for more inbox space so I wouldn't have to keep on deleting my old PMs, and I want to keep it organized.

What I plan to achieve: What I plan to achieve are being really active, making posts daily, becoming well known, a legit seller, warning people who to deal or not deal, and Lasty, I would make more give-aways!

Thanks for Jasmine, Good luck to all! (:

Gummy Bear - October 3, 2012, 9:54 pm

I want to have L33t because I am very active on HF and have done some services for people.

Examples mw2 recovery services and 1 wow giveaway. I plain on doing way more for HF later on.

^----Hopefully this rainbow got my post notice :D...If your reading this then it work

Name: Well i think its obvious...My name is CARLOS

Well i think i deserve an upgrade because, i contribute. Not as much to the whole community. (Sorry to the 99% of members) I do give aways, like once every blue moon. But most of the stuff i give away is to those who made a thread and ask for it. I dont sell things on HF that you can get for free.

I help people who make threads and ask for help. I dont have that much thread or Post to validate my contribution. But my rep hopefully help me in this situation..And yes..(Im a REP : Post Bastard...Dont hit me with Red Rep now because i post this :P...But i dont care if you do then. Just troll me)

But yeah, thanks for hosting this. Hopefully the number of post i have wont denied my from the top 3..or top 1 :P

+Plus did anyone notice. I made my text size big to make my application look long :P

+il wish Good luck to you all....or do I ?

Irish - October 3, 2012, 10:13 pm

FuckitsJasmine™ you are a legend! I participated in your last contest, so thanks for giving members another chance and contributing.

Anyway here's my entry:

I want to be L33t so I can continue to help the hackforums community. I've been a member for nearly 3 years now, and really enjoy this community as a whole and along with sub-communities. I love contributing to debates, helping users in the hardware section, and reading the tutorials; I always try to help out where I can.

I originally joined this site to learn and utilize many of the great coding tutorials on here, and as I aspire through university to obtain my computer science degree, I hope to be able to return the favor with my own tutorials.

Thanks for the second opportunity! ?

Pops - October 4, 2012, 12:30 am

Hi there. I believe I deserve to win this upgrade because although I haven't been on here very long I have made some great contributions to the HF community.

My biggest contributions include:

- An in depth guide on Internet anonymity
- A complete beginners guide to hacking
- A 1.37GB hack pack
- Spoon-fed guide on how to set up a keylogger
- How to hack wifi on and iDevice
- How to boost your Enhance Views credits
- A great PPD guide
- A 30 page beginner hacking eBook
- A \$40 Facebook ads credit giveaway

I am also a kind and respectful member. Look through my posts and you'll see the proof. Sure, I've been rude once or twice, but the members deserved it.

Overall I try to be a really helpful member.

What do I plan to achieve on HF?:

- Make informative tutorials
- Post another hack pack
- Make a better PPD guide
- Help people!!!

That's my entry. I hope I win, but if I don't, I hope the upgrade goes to someone who is truly worthy of it. As always, good luck to all the other entrants.

Why do I want to upgrade:I would not give you sample links of my work/help that I have provided to the community. It's been good 5+ months that I am really working hard to do my best for HackForums. And I believe; my work should speak for itself.

Let it be the Lounge, giving suggestions/ideas for the betterment of HackForums in the 'Suggestions' section, participating in healthy discussions ; I have tried to be active in every section that suits/interests my knowledge areas. Not only this; I am pretty much in to giving quality advises to our members, it can be an issue that they are facing on HackForums or some personal problems pertaining to their life (Only if they are willing to discuss it). Additionally, being in to the technical field, I really feel excited in solving technical issues of our fellow members. And I must say, I have solved many such technical queries here..With the money ill need some more and ill upgrade myself.. I have some giveaways too :)

what do I plan to achieve: I plan to make some tuts this month about xss,sqli and some giveaways of some Lr cents(All i have):(.. :P :)

Why should I Deserve HF L33T?:

Well Its a long story, I used to be happy with my current group which is "Normal", I didn't even bothered having upgraded to HF L33T or UB3R. After a while I decided to start helping the Hack Forums Community by posting Hack Tutorials, Proxy Lists, Creating GFX and tried my best to serve even when I was a Newbie. No matter how they swear to me, I will be always kind to them. I was so happy when users started to respond to my threads such as "This is a great List","Vouch for this dude,Good Stuff bro" etc, Trust me. It made me so happy since people are started liking my services and tutorials. So I kept on doing things like this, but after awhile things got harder for me. How? I started posting freebies and things. People liked it so much and PMing me for the stuff & fast. My Inbox was getting filled quickly and some users could not PM me and I felt sad for them and that's one of main reason. So I hope that I deserve to be in HF L33T. I will be sharing all my knowledge to the community and Stay as HQ Member.

Here are some of my contributions:

2-I have done signatures for many members not only to help them but to also increase my photoshoping skills.

The 20% warning is about my minecraft giveaway that i didnt know i wasnt allowed :(

I have done giveaways because for me becoming l33t isnt on the first plan and i also cant afford it.

I consider myself HQ ,and i have always showed people my opinion if they needed help.

Worth mentioning is that i have also been scammed by an ub3r and a l33t in the same day and -repped by the ub3r and 1 of his friends. Being l33t would help me give that guy an neutral reputation for other people to see that he is a scammer

Hopefully i will be one of the people you will upgrade in this contest or in the next one because being l33t i could rep all people who have helped me till this day, wear signatures which i made and also join a group ,thing which i cant do due to the fact that i am a normal member and i doubt they would accept me

scam. - October 4, 2012, 5:19 am

God fucking damn it. I just wrote a huge application with links to all my giveaways and tutorials and my fucking browser crashed.

I strive to be as HQ and active as possible and as you can see I'm pretty active. I'm not the person to judge my HQ level. I want to be upgrades to l33t so I can take advanced of all the upgraded member forums, like posting in the giveaway section. During my 5 months here I have accumulated almost 800 posts and +33 positive rep, no negative rep, but I do have 3 neutrals for stupid reasons mostly. If I get upgraded I'll be able to host more contests and make giveaways in the correct sections.

I would've upgraded myself a long time ago but I am unable to due to insufficient funds so this would be helping me out a lot.

Tutorials:

[how to make a very basic signature. \[PS Cs5\]](#)

[How to make a very basic pressed text effect. \[PS Cs5\]](#)

Giveaways:

[Win the ship complete pack \[steam game\]](#)

[Win Torchlight, rochard, shatter, S.P.A.Z and vessel. 2 winners!](#)

[\[FINISHED\] Smite beta keys.](#)

Thanks for taking your time to read this. I'm going to sleep now and will make this better tomorrow.

Then i am very friendly with all the members here including the normal members you may verify with my threads and the contests

i have organized and also see who all have won the contest you will be surprised to see i have made to win the normal members in the contest, verify if i am liar ?

Secondly i want this I33t because i will organize many contest after winning this if i will!

I personally think i am HQ at my grammar i can say i have a grammar skill of 7/10 and also i will improve it in future to approximately to 9/10. I have helped this community by answering as many questions i mean as far as my knowledge is concerned.

I don't say i have only helped this community rather in turn i have taken help many times by many users in this community as some people are just awesome in this community with a lot of knowledge in each and every field from whitehat to blackhat.

Then i have not made this application look beautiful because it doesn't count to be HQ, well i know each and every mybb code implemented in here by the admin Omniscient.

That is all i want to say about myself in the application of this upgrade competition.

Best of luck to all the participants entering in this competition.

No Return - October 4, 2012, 7:51 am

I'll be pretty honest here, I likely don't deserve it more than others here. I come here mostly to do business - to get services, to exchange currency, do what I need to do and that's that. I spend a little time in the Lounge and Philosophy section, but mainly I'm here to get things done.

However, that's what most folks are here for. The resources and people here to get things accomplished or learn or share something. To be perfectly blunt, there's a heck of a lot of scammers and skids and all around bad guys out there looking to screw you, and I've gotten bit more than once already, so I try to make sure people around me are careful and protect themselves, vouching for good members and advising people to be wary of ones who are not. Though getting scammed myself hasn't killed my interest, because there's things here I can't get elsewhere, and the systems in place are pretty good overall. I'd primarily like to get upgraded so I can do more business, and it would encourage me to do just that. The Marketplace is a strange and wonderful bazaar, and everything I've done has been legit and well received by those I've done business with, and a pretty high rep ratio compared to my number of posts -- hopefully, I can win this upgrade contest (even if I'm not the most deserving) and be even better able to work with people. (And while I'm hoping for things, hopefully not get scammed again.)

Thanks for your consideration.

EbicNinja - October 4, 2012, 8:45 am

Why I want/deserve it: I really want l33t since I feel like I would be able to help the community a bit more, then I am now, I'm trying to learn a lot and what I know I share.

Of course there are some members that deserve this more than me but I would probably be really happy if I would get it!

What I'm trying to achieve: I wanna learn how to code and how to set up RAT's and other programs I also want to learn about computer security and how to protect yourself from an attack/virus/RAT or keylogger etc. I also want to be able to help other members like you're doing with this contest!

Thanks for me, I hope you choose the one that deserves this the most!

Good luck to all!

Why I want to be L33T?

I want to be L33T Because it makes me feel better and an exclusive member.

Why haven't you upgraded?

I haven't upgraded because I cannot get a credit card or a paypal right now.

What Have I done for this community?

I have helped people get free things and have been a friendly user. I also never try to argue with other users.

Why do I want to upgrade?

I really want to be HF L33T, it's my dream but i don't have money.

Why haven't I already upgraded?

I don't have paypal(he is limited) And i don't have money..

What have I done to this community?

Cause i have 3 big giveaways , i will be give more in near future.. I think i am good member, i am not leecher etc.. :))

Also , Thank you for giveaway :)

TBS.TheCyber - October 4, 2012, 9:41 am

Thanks for the second chance, as I was upset about not winning the previous one.

Why should you upgrade me?:

First of all, this time I'm gonna explain more why am I deserving this upgrade. First off, I'm an unemployed guy, who has no bank account or any paypal. I tried in many several ways to get myself upgraded, but I couldn't do so for many reason, and since it's too blackhat, I quit.

I believe that everyone deserves a chance, especially for the ones that are not able to upgrade themselves or afford to do so. I'm planning on doing a lot of things If i ever got l33t, Including member contests and giveaways, Cuz i'd have the money since I would start selling some stuff just to give to the community, and I feel that I'll need someone to turn the engine, that would be upgrading me and I would start from there. If you have any questions or any other thoughts, please PM me because It's really more than Important for me to win this contest as I didn't on my first chance.

P.S - You can always look through my reputation points and posts (even though I do NOT have any giveaways, except one hotmail account, but I'm not LQ tho).

Thanks for Including me in the contest, and please PM me for any questions because it's really important.

Regards.

If i get ubgraded i will continue posting under Suggestions and Ideas and i will make more tutorials/guides which i hope will get better and better.

Quite Empty - October 4, 2012, 11:55 am

Well! Round 2! HELL YEAH.

Why I deserve l33t: When I am helping others, most people do not take me seriously and then oh hey a upgraded member comes along and then the person who needed help takes the l33ts (or highers) help and then they complain that something went wrong, I try to help him again. Guess what? The upgraded member isnt there now! I want it to be taken seriously, not as a LQ skid trying

to help someone, I've been a member of HF for a while and is said to be very HQ.

Am I HQ: Ask some of the people in the computer overclocking section. If you never visted the section, this best people there are Bengali, Aesthetics (Got rep from him!), Programmargorp and more, can't list them all. In MY opinion, I am not the highest quality poster but someday, I will reach it.

What I plan to achieve: Help others, with more seriousness taken on me. The ability to rep other people so I can rep other people and not feel guilty when they are a big help to me and I can't even pay them 1 cent back, more as well.

Good luck to all! May the best applicant win.

EDIT: Hoping to get some people to vouch for me. Just gonna have to see how it pans out!

Thanks for reading my application! Hope I win!

Sorry if I missed the application format (if there was one, if I missed it, Jasmine could you PM me and let me know? Thanks! ?)

EDIT2: Thanks to That0n3Guy!

EDIT3: Thanks to Gene Starwind!

EDIT4: Thanks to ?? . ???g?!

EDIT5: Thanks to Aesthetics!

Treasure - October 4, 2012, 1:56 pm

Why I would love to become L33T!

Hey! First of all I would love to say thank you for giving myself and all the others who have applied the opportunity to obtain L33T!

Anyway, Let's get onto to why I want to get L33T. Well, I have always known that I wanted to get L33T here on HackForums but I have never really had the money and even If I did I have no way of paying for it. I am only 14 so I don't have my own bank account and am not the legal age to sign up for Paypal. I have asked my parents if I can put money into their accounts and buy it from there but they are real tight about where I purchase things.

I would also love to win the L33T upgrade because I constantly find myself having to delete my messages I have received from other members. I hate to do it because some of the messages contain things that I really want to keep but non-upgraded users can only have up to 50 messages.

Another reason why I would love to receive L33T is because I really want to be able to give out reputation to users that are contributing to the community. I see great users that really deserve rep everyday but I can't give them it! :)

Those are my reasons as to why I would really love to be the winner of the L33T upgrade. I am very active here on HackForums and would love to be able to have all the features upgraded members have got. Like I said at the beginning of this post thanks alot for hosting this contest Jasmine! If you have any questions about anything I said then feel free to hit me up VIA PM. :)

Mineo - October 4, 2012, 2:07 pm

Name: Mineo

Reason: I would like to be L33T because I am very active and I am very helpful. I create tutorials for the community not because I want to, but because I want to help the community. I always contribute to tutorials from the community and with the staff. I always obey the rules and I am working on a deface page making service for the community.

Thanks.

Well to start off i am very active on this forum like about 5+ hours a day and you may verify if i am saying the truth on my profile.

Then i am very friendly with all the members here including the normal members you may verify with my threads and the contests

i have organized and also see who all have won the contest you will be surprised to see i have made to win the normal members in the contest, verify if i am liar ?

Secondly i want this l33t because i will organize many contest after winning this if i will!

I personally think i am HQ at my grammar i can say i have a grammar skill of 7/10 and also i will improve it in future to approximately

to 9/10. I have helped this community by answering as many questions i mean as far as my knowledge is concerned.

I don't say i have only helped this community rather in turn i have taken help many times by many users in this community as some people are just awesome in this community with a lot of knowledge in each and every field from whitehat to blackhat.

Then i have not made this application look beautiful because it doesn't count to be HQ, well i know each and every mybb code implemented in here by the admin Omniscient.

That is all i want to say about myself in the application of this upgrade competition.

Best of luck to all the participants entering in this competition.

Thank you for the contest. I would like to personally vouch for Known45, he seems HQ and legit to me. Good luck bro.

Thanks to OP for the contest, it's always nice to see an upgrade contest.

THE RULER - October 4, 2012, 3:15 pm

I believe I deserve L33T because I feel as if I can commit to becoming a more high quality member if given the opportunity to. Not having some sort of premium status seems to diminish the first impressions of people that see you throughout the forum, I'd like to change that, though I've spent most of my coin on the server costs for my minecraft server.

Throughout HF I would like to accomplish the following goals.

1. Increase my minecraft server population.
2. Make some money in various ventures.
3. Become a somewhat reputable member.

New Age Legacy - October 4, 2012, 3:28 pm

Vouch for Synchorizer. Nice guy and he knows what he's doing.

mindfreak707 - October 4, 2012, 3:49 pm

Why would you even consider me for a L33T Upgrade?

To start, I am generally a HQ user, although my posts on this forum don't do me justice, I have been working my ass off on other forums just to please the other users of the forum and to help others out. I haven't been paying much attention to this forum, honestly just going around as a little "skid" and buying from other users on here/trying to become accepted by the members of THIS forum.

Anyways... IF I am given the great opportunity to become a L33T member, I will dedicate an exponentially greater time-frame to making this community's forum better with every post I make. I will VOW to become more active, part-take in more community-oriented threads (i.e. giving away items/virtual goods etc.) and help any user on HF.

Thank you for reading my appeal, and I really do hope that you consider me for this position. It would mean the world to me that someone would care enough to upgrade me; it would be more than a new user tag, it would mean a second chance to redeem myself and prove myself worthy.

Thank you.

Vinster - October 4, 2012, 3:57 pm

Nice contest! Compared to some others who applied, I probably don't deserve an upgrade, but I really want it, so I'll try it out!

I originally made an account here in '09, and due to getting gang neg-repped by some douche bag and his friends for doing something that was perfectly in-line with his rules, I never came back. Made this account..whenever I made it. I made this account to learn more than I did to ask for free shit on my other account. Since then, I've helped a lot of noobs with problems through pms (not any posts for you to look at I don't think.. I always just PM). I've helped with botnets, booters, rats, and I've also talked to people about random things. I'm here mainly to learn, though. I lurk in a lot of the sections, mainly the Website and Forum Hacking section, as I find it interesting. I started not being nearly as active on here when it became to much of a hassle to run my booter and keep in contact with everyone when I can only hold 50 messages in my inbox at once. I often logged on with a full inbox, and people just got upset about it.

I am, and have always been very legit when it comes to business. My rep is all positive. No negs. I've bought and sold on here, and will continue to.

With L33t, I will be more active and I will try to help the community more. Maybe I'd come on as much as I used to (20+ posts/day).

Good luck everyone!

Vouch for Synchorizer.

Nice member, he knows what he's doing, he deserves it.

Wiggle - October 4, 2012, 3:59 pm

I have been on these forums for awhile now and I have had so many opportunities for supporting the forums but they all get shut down because of not being upgraded. I would love to be upgraded so I could just start to stick out more and be able to help more members that are not upgraded. Being upgraded for me is like a child growing up. I would love to be upgraded and I would appreciate it so very much. <3 Good Luck To Everyone!

Thomas446 - October 4, 2012, 4:00 pm

Why you want L33t: I have been an HF member for only 1/2 a year, but i think it is a great forum. The only bad part is it is so sad when i see a HQ member with 0 rep, and a TON of LQ people getting rep for "Welcome to HF!". If i was L33t, i would give +rep to those HQ members. I always am helpful to people, and i don't ask for too much. I have a few HELPFUL THREADS, but I have A LOT of helpful posts. Also, People listen to l33t. I was scammed out of a l33t contest. If i was l33t, i could have neutral repped that person as a scammer. All together, I think I am a pretty HQ member, and I deserve l33t.

Also Thanks for the contest!

Locklyon - October 4, 2012, 4:02 pm

I do really want to upgrade to L33T,

I already was getting some money to upgrade but, seems like here a lot of giveaways I'd really love to upgrade to l33t seems like i am new member and i don't really have enough money, I am friendly/active/helpful member am really trying to do my best to be l33t.

After i be l33t i'll try to make contests and giveaways to other members to help them also i am trying now to make.

That's all.

I just wish good luck to all members.

Regards!

Pillows - October 4, 2012, 4:04 pm

I want to be L33t because im always active and want to give more to the HF community.

If i win i would like to go to the pages only upgraded members can go so i can do other thing i couldn't do before

User I would like to Recommend: Synchorizer

Profile Link: <https://hackforums.net/member.php?action=profile&uid=1094998>

Reasoning:

I would love to Recommend my friend Synchorizer for a prize here for several reasons, for starters, he is a great member, he has made many High Quality posts, and has helped out others.

He has also several times been on the bad end of the "scam" wall, and has been scammed by some users, and I feel he has matured, and grown to be a valuable asset to the Forums, and to everyone he knows.

I hope my recommendation is considered, I don't think I have ever recommend anyone who isn't myself for a contest, ever, so I hope this is strongly looked over.

Have a great day, and good luck with your contest.

~??. ???g?

Player - October 4, 2012, 5:40 pm

Hey! Great contest I have to say.

On-topic: I think I need to get L337 because I'm a community contributor, I help people when I can. Browsing atleast 2 hours/day in this site since 2012 beginning.

Good luck to anybody!!!

(Oct 4, 2012 11:55 AM)Synchorizer Wrote: [CITE](#) Well! Round 2! HELL YEAH.

Why I deserve l33t: When I am helping others, most people do not take me seriously and then oh hey a upgraded member comes along and then the person who needed help takes the l33ts (or highers) help and then they complain that something went wrong, I try to help him again. Guess what? The upgraded member isnt there now! I want it to be taken seriously, not as a LQ skid trying to help someone, I've been a member of HF for a while and is said to be very HQ.

Am I HQ: Ask some of the people in the computer overclocking section. If you never visted the section, this best people there are Bengali, Aesthetics (Got rep from him!), Programmargorp and more, can't list them all. In MY opinion, I am not the highest quality poster but someday, I will reach it.

What I plan to achieve: Help others, with more seriousness taken on me. The ability to rep other people so I can rep other people and not feel guilty when they are a big help to me and I can't even pay them 1 cent back, more as well.

Good luck to all! May the best applicant win.

EDIT: Hoping to get some people to vouch for me. Just gonna have to see how it pans out!

Thanks for reading my application! Hope I win!

Sorry if I missed the application format (if there was one, if I missed it, Jasmine could you PM me and let me know? Thanks! ?)

EDIT2: Thanks to ThatOn3Guy!

EDIT3: Thanks to Gene Starwind!

EDIT4: Thanks to ??. ???g?!

Love you all! (no homo :P) Thanks for the vouches. He's a very committed person in hardware section. He gives up his time and knowledge to help other memeber and assist them with hardware related question. He's a very intelligent member and great asset to this forum.

soccerky126 - October 4, 2012, 5:56 pm

I would like l33t because I have been around for such a long time, always staying committed to hackforums. I really love the community, and I can see myself staying here for a very long time. I hope to Upgrade to l33t myself, but I'm not sure if I could convince my parents to do it. I'll be sure to make more HQ posts and what not after the upgrade to make a good example. Hoping to win! c:

1. Why do you deserve L33T?:

- I'm a nice member, who loves to meet new people. I'll happily help members with my knowledge, if I can.

- I want to show my gratitude to the people who I feel worthy of +Rep's.

- Being able to post more in the forums

- Get more "integrated" to HackForums

- Be able to learn more

- Get even more trusted, so eventually more people can see that I am a trustworthy guy, and a nice

member

2. How have you contributed to Hackforums?:

I'll admit that I've been kinda lurking around looking for good money making tutorials and haven't contributed much, but I have a good reason for it. I use a lot of my time to find good tutorials to make some money. I do this, because I'm supporting the fight against breast cancer. I've donated a lot, and will still do it in the future. I give most of my donations to the Norwegian Cancer Fondation (Kreftforeningen).

-

Therefore I've only had one giveaway:

[Steam Account Giveaway](#)

I've shared my bhop method for CS:S, even tho many already knew it:

[AutoHotkey CS:S Bhop Tutorial](#)

3. What makes you different from other members?:

I don't think I'm so very different from every other member, I look at almost every other member as an equal. But of course, I always take precautions.

I'd like to think that everyone's a good person, that's just who I am.

Not everyone has a lot of money, and must use it on rent, food etc. But with my extra money, I donate them either to the Cancer Fondation or something else I feel worthy of a donation. I also use a lot of money on my grandma, who's got cancer.

My intentions is not to complain about my real life here, I just feel like you should know, since I'm participating in this contest.

Last but, but not least:

Thank you so much for this contest, this opportunity!

Before you point it out, I'm sorry if I've got any grammar fails, or bad English.
