InFaMoUs Recruitment Thread

"We are Infamous"

Requirements

There are no set requirements.

How to apply

Most groups would ask you to create a thread with why the group should allow you to join. We are not most groups, instead of telling me why, I want you to show me why. There is no set post format, so be creative, the most important part though is linking at least 10 posts that will illustrate your value as a member. It's up to you to decide what those 10 posts are.

Belligerent - October 3, 2012, 10:33 pm

Hello!

First of all I'd like to say thank you for the opportunity to apply for such a great HF group.

I feel I'd be a good fit because I come on HF for two things and two things only.

I help people out in the Marketplace as much as I can (the marketplace is what I specialize in)

I also LOVE to do giveaways and I mainly am here on HF to make money.

I also am a great person who likes to conversate with most people and do my job as a HF member!

Retribute - October 3, 2012, 10:49 pm

Retribute's application

Hey guys, I'm Retribute, formally known as RubiksHQ.

My purpose on this forums is to assist others. There's a reason why the majority of my posts are all based on assisting a person, whether that be in a specific area -- such as the WhiteHat Help section --, or regarding the site itself. I will also admit that I've been quite busy in real life recently, which explains my plummet in activity on this site as of late, but I can guarantee you that you'll see me more once I get back up and running. School is actually a big chunk of my inactivity. I tend to strive to reach a definitive A in every subject at school when school starts to get myself a good starting base, then build up on there for the whole year. That is why I'm usually inactive during the first few months of the school year.

Anywho, I've been watching this group and its predecessor Propitious ever since it opened, and I have to say I'm impressed by the work of your members. A big chunk, if not all, are always helping, and I'd like to have the opportunity to be a representing member of your group to reflect the group's purpose in a positive way throughout the entire site.

I am knowledgeable in the following, but not limited to: Technical support

English writing

White Hat help / Computer security

Graphical designing (even though I have not posted any of my work to the public, I can ensure you I'm pretty good, heh).

A little bit of greyhat knowledge here and there, although I try to step away from that side of the spectrum if you know what I mean.

Now the 10 helpful posts part...this was rather difficult since I usually just hop in and out of threads.

Good luck to all the other applicants.

Tangy - October 3, 2012, 10:49 pm

To start off my application, I would like to tell you that from the past few months I have been here on HackForums, I have watched many groups go from near-perfect to absolute bull testicles. However, I have seen the leaders of InfaMous (previously Propitious?) take careful yet effective actions to maintain the quality of the group. I envy how the leaders take action in regards to their group and I look up to them when I myself am leading my own team (not necessarily on HackForums, but I'm going to be studying business in a few years time so leadership would be a must).

As a teenager who is keen to earn some cash online, I know how others the same age as myself feel when it comes to money and earning it online. As I am currently a noobie venturing into the marketing scene of CPA (Cost Per Action) and PPD (Pay-Per-Download), I help them with whatever I am knowledgeable in/with. This is because I know how they would feel if no one were to be able to help them with issues of earning online money. I share whatever knowledge I have with other members to help them on the road to a passive online income.

Just.. Feel free to message him you have an issue. That fact you're coming back to criticize for no reason doesn't make sense.

Why make a group called 143?
Why make a group called The Alliance?
Why make a group called Serenity?
Why make a group called Logic?
Why make a group called root?
Why make a group called illuminati?

I'm curious that's all. It feels weird looking at the group on HF that was primarily a XBL GROUP ONLY. Like it's weird and hard to understand. I mean it would be cool if a lot of the original members came back but it's doubtful that will happen. Gotta understand it's been awhile for me. So names and GTAGs are rusty especially from 08 on down. I have to manually search thru halo 2 stats. It's a bust. So if I question people and their motives I have a good reason. I just feel weird about the group being on HF. That's all=) ?

Scyiiia's Application

Why I think I should get in:

First of all, I think I should be in InFaMoUs because I feel as I am a very helpful member. I try to help members to the best of my ability.

I have done many helpful deeds as from tutorials to giveaways and contests. If I could, I would've bought my way into InFaMoUs but I don't have the money and I hope that I can get into the group by this application.

Previous Groups:

A previous group I have been in is Rhythm, however there was some confusion which caused some disruption and got me kicked. As of today, I am in the groups Ub3r and Eminence. I was recently granted entrance to Eminence because WiFi. was going to turn the group or sell it.

What I have contributed:

I have contributed many things to HF, like giveaways, contests, and tutorials. I have given over 600\$ worth of things in my contests and giveaways.

Designer's InFaMoUs Application:

I've contributed a few helpful threads (this amount will obviously grow):

Since I've been a member of HF I have always tried to be kind to people and provide help to everyone who needed it.

What do I plan on doing in my future at HF, at InFaMoUs:

My future at HF is looking great, big and fun.
I am planning on holding a lot (more) member contests & give-aways.
I will be working on some tutorials which I will share for free.

Tutorial such as graphic tuts, but maybe also other tutorials such as web development/forum development or something.

As a 'designer' I will probably be releasing more PSD files/packs of signatures I've made for learning purposes. I will also be releasing/sharing other useful PSD files.

I am going to offer (more) free graphics to members (maybe also paid).
I will do this when I have more time.

Whenever I get a message from a member I try to help him/her as much as I can.
I get serveral PM's a day and I try to offer everyone my help and support.

Since I also have some knowledge about different kinds of forum/website software I will probably also provide help for that too (in the future).

I have some HTML & CSS knowledge (still learning), so I might work on a website and share it here. As in a template release.

Of course I won't be sharing all the time, my experience at HF should also be a little for myself ^.^
In the future I will probably (try to) learn more things. Things about graphics, SE'ing, programming and whatever I can learn :) I just want to have fun and eventually become succesful in something.

Of course I will always stay helpful and kind to people.

Kind regards,
Designer

InFaMoUs is not the same as in the good old days. Thank you anyways.

Phytrix's Application

Prenotes

Before I begin, I'd firstly like to apologize for what may come across as a relatively terrible layout. I'm not the most... visually attractive formatter. I'm not very knowledgeable in graphics and am not very good at selecting which colors/fonts go well together. That being said, I tried my best to format my application appropriately so that it stands out and is hopefully somewhat visually appealing to those that read.

Why do I deserve to be in InFaMoUs?

There are a lot of reasons why I believe I deserve to be in this group. Some reasons you may agree with, some you may not, although the reasons I'll list will describe me as both a member of Hackforums, as well as the person I am in general. I'll list them in dot points for easier reading.

Maturity: I'm a mature member, ultimately resulting in me knowing how to deal with disagreements and how to act under certain circumstances.

--

Helpful: I'd consider myself relatively helpful and will most definitely transcend this quality into InFaMoUs to the best of my ability. I'm willing to help anyone and everyone with passion and empathy.

--

Active: I'm relatively active. During the week, I usually am able to squeeze out 20 posts a day. This is due to study and that I go to a boarding school. On the weekends, I go home. Based on this, I have many hours on HF. Based on what I do during the day, I'm usually on for around 8-14 hours on the average weekend day (not the whole weekend, just on a particular day). On top of this, I have school holidays coming up. It goes for 8 weeks, so that'll result in me being extremely active. As such, I can spend time working on things for the group and generally contributing to HF as best as I can.

--

Grammar: I consider my grammar relatively decent and attempt to keep it as decent as possible. Of course, nobody is perfect, although I'd say my grammar is among the better in relation to HF members. This probably isn't relevant, as it doesn't seem that's what the group is looking for (based on its description), although perhaps it helps.

--

Intelligent: I'm relatively knowledgeable in relation to how HF works and how people work in general. I avidly study people and their actions, based on circumstances and pressure (mainly emotional). I'm always seeking further knowledge and do so by reading and inquiring. I'm definitely not the most intelligent member around here, although I put in a lot of effort into everything I do.

--

Respect: I'll respect each and every member. I already do this, of course, and I plan to continue my everyday behavior. I understand that groups have rules. I shall respect these rules as I shall continue to respect the members of InFaMoUs.

HF contributions

As a member of HF, I enjoy giving back to the community. Although I don't have a lot to give, I give what I can. First, I'll discuss the contributions I make to HF that have nothing to do with physical or virtual goods (nothing to do with money, items, etc).

HF News: As you may or may not know, I am an active member of the HF News. I currently take the position of Interviewer and Proofreader, although I commonly do extra articles for absentees. You can view my work on the HF News threads from the last few months if you wish to view the quality or enthusiasm that I impose. I try my best to make all of my articles a good read, despite the topic. I've yet to not contribute to any edition of the HF News since I've joined the team (roughly 4-5 months ago, I believe. Don't quote me on that), except two editions in which issues arose. One of those issues was due to me going on inactivity for 2 weeks. I did my 2 interviews prior for the coming two weeks, although it seems they both had to be used on a single edition due to absences. The other was due to lack of valid interviewees (this was the 100th edition and Sir wished for highly regarded members).

--

Groups: I'm currently a member of four groups. These groups are as follows: Rhythm, Logic, The Empire and Writers.

--Logic: I'm an active debater in Logic. I participate in various debates in the subforum and retain the highest of quality that I can offer throughout each and every topic and response. I have almost 200 posts in Logic (197 at the time of this application) in the ~2 months I've been in the group. I'd like to think that all of my responses are well thought-out, extensive and well communicated, although opinions will be but that; opinions.

--

The Empire: The Empire is relatively secretive in its works. I enjoy the Lounges particularly (call me a Lounge whore) although the other partitions of the group interest me greatly. The group is on top of most things, and as such I don't do anything particularly contributing in the group, except being an active and a respectively quality member. I show the group in a good light and show myself if a good light inside of the group's subforum.

--

Rhythm: Although this is but one of the groups which I actively contribute to and with, it is one of the groups which I enjoy the most. I've run Activity Reviews for the last few months in Rhythm, checking each week to see if members are active and their posts are quality. Just a week ago (roughly a week), I was promoted to a leadership position in Rhythm. I act as a role model, as well as arranging group activities, members and their suggestions and official documents.

--

Writers: More or less everything I listed in the 'HF News' section a few sections up. I post in the Lounge, although apart from submitting our articles each week, not much more takes place for the HF News team. We share the group with the HF Wiki team, although I'm not a member of that team.

The following was taken from a contest application of mine a week or two ago. The list is still valid.

Stats

Spoiler ([Click to View](#))

Rules, Announcements, News and Feedback - 113 (help members get familiar with rules and whatnot)

Suggestions and Ideas - 95 (shows that I enjoy leaving feedback on site suggestions)

HF News - 129 (help members with News questions and whatnot)

Member Contests - 279 (shows that I like entering contests, although I also host a few)

I also have many in the groups which I'm a part of. 3K in Rhythm, where I actively act as a role model and help the group. ~250 in Writers where I help produce the HF News, ~200 in Logic and ~600 in The Empire, which demonstrates how active I am in my groups.

Eternal. - October 4, 2012, 12:32 am

Hello, I am ?TERNAL and I want to join InFaMoUs because it seems like one of the high quality groups on Hack Forums. I am trying to expand my reach on this forum, I want to know people who are worth knowing, help people worth helping and get the most of of my experience on Hack Forums. To get the most out of the site, I have set my eyes on the groups as they have higher standards in the sub-forums, and as a whole than just Hack Forums generally, which can be a great thing.

Things of note about me:

I am 21 years old.

I act as such in all cases.

I get along with most everyone.

I am reasonable, logical and calm when I disagree with someone.

I try to maintain quality over quantity in my posts, but sometimes post funny shit :D

I am not a scammer, go ahead and check.

I am a writer, not as in the group but as in the art form.

A strive to be the best that I can be on this forum, and off of it.

I love psychology; human minds and manipulation fascinate me.

Intoxication, medication and mental illness also fascinate me.

10 threads that show who I am, this is the best I could do because I recently closed a lot of my threads and deleted what they were about in title and post. Not that this is a poor choice, I think these threads are awesome and hope you will as well.

What i have mostly done on Hackforums is definitely contributing in the GFX Section think i made over 120 Images for people on Hackforums the past 3 weeks, shows my dedication to help people.

Some of them i could find right now.

I have tried to improve myself and becoming the best member i can be member by releasing programs i have coded and crypters i have made. I try to tell all my friends about Hackforums and how wonderful it is and how easy it is to make friends here. I mostly hang out by the Visual Basic Section and The lounge. I really want to join infamous and doing so would be awesome.I also release program's for others to use. I always release the source so people can learn what i have. I really like programming where you have all the power in your hands or brain.I believe in the time I have spent here, I have learn't more skills that I will treat as fundamental, more social experience that I will treat as fun, hilarious and warming, and have experienced my fair share of scamming, flaming and trolling. from these experiences.I've contributed to the community a lot. Well, I've made

several tutorials, gave out several giveaways and helped a ton of members. I've posted a lot of decent posts and build up a quite good stats. I've helped a lot of members trough posts. I'm active, on for a few hours every night usually. I love the community, and I try to be nice to everyone regardless of what they say. I believe Infamous is one of most respected groups on HF they hardly accept any buy ins and any one can join regardless of rep post count or warning levels they give everyone a fair chance i hope i am . Thanks you for reading my long and boring entry:D. Thank you opening recruitments for everyone i have been waiting to apply for a while now.

New infamous brothers would be nice. Good luck to all participants.

Jasmine? - October 4, 2012, 5:46 am

"How to apply:

Most groups would ask you to create a thread with why the group should allow you to join. We are not most groups, instead of telling me why, I want you to show me why. There is no set post format, so be creative, the most important part though is linking at least 10 posts that will illustrate your value as a member. It's up to you to decide what those 10 posts are."

The word IMPORTANT catches my eye. So, ill start off with my links:

1. <https://hackforums.net/showthread.php?tid=2870728> I know what youre thinking.."why the heck is this important?! Ah, well that is a good question. As a member, this shows that I am considerate, although I may be blunt. I know my limits.

2. <https://hackforums.net/showthread.php?tid=2875635>

*Curiosity strikes me on the forums. This is one of my giveaways.

3. <https://hackforums.net/showthread.php?tid=2894298>

*My first ever upgrading contest. So far i have upgraded 4 users; donating to Omni also soon.

4. <https://hackforums.net/showthread.php?tid=2901154>

*If there is something i enjoy doing, it is making articles. Putting it out there is the least I could do.

5. <https://hackforums.net/showthread.php?tid=2910013>

*I think its only fair to make a service on what i enjoy doing.

6. <https://hackforums.net/showthread.php?tid=2903701>

*I put those that are worthy, and even better than me first. Upgrading users is something I enjoy doing; I believe everything should have a good reasoning to it.

7. <https://hackforums.net/showthread.php?tid=2914812>

*one word: Contribution.

-These are not my threads, but replies I have left on other's threads.

8. <https://hackforums.net/showthread.php?tid=2908487&page=2...> (#15)

Helping out other users on this forum. Instead of reading my threads, I reach out and help users on their own threads.

9. <https://hackforums.net/showthread.php?tid=2898191> I believe having fun should be implied on the forum as well. I participated in being a judge on a users thread. (:

10. <https://hackforums.net/showthread.php?tid=2882851&page=2> ..(#19)

I believe users should have a 2nd chance on the forums.

Although I contribute and help others on the forum, I believe its also a good thing to speak your mind. I remember getting flamed at for doing so; a reported post; bunch of messages.

You might think I'm not worthy because of my rep or posts. You might think I'm still a "wannabe", but ill leave it at that. I'm not here to impress you; just to catch your attention.

I may not be a big ub3r with 300+ rep, but fuck it.

I want to be in this group because i love the concept of not having to impress. I like the concept of speaking your mind regaurdless of where it takes you. It stands out from other groups. I love how there aren't such strict requirements. Some infamous users here are very HQ. I aim to be one of them one day. I hope I qualify, and if i do--think of me as a sister. Im active on the forums and i support this group and members as well.

About me(if you need it)- My name is Jasmine, I live in Houston, I'm 17. I came to the forums to learn the basics of hacking. I came to know that this forum is more to me than a place to learn.

Thanks for your time.

E36 - October 4, 2012, 5:49 am

My name is Bane, I believe I should be apart of your group because I myself am infamous for a lot of things. Such as sharing my opinion exactly how it is, no need to twist up my opinion cause if I did and you liked me then you would be doing it for the wrong reasons. I think you will find that I am also a very unique member as I can say that I have seen death and spat in his face. I believe these posts will describe who I am as a person.

Shame - October 4, 2012, 6:43 am

Honestly, I didn't know what to put here, but I figure I might as well just go for it. I'm not saying I can set myself apart from some of the other applicants, all I can do is really hope I'm a consideration. I don't consider myself a huge person on these forums, I'm not constantly doing sales and shit. I can promise you though, that whatever I get into, I'm dedicated. I have contributed to HF quite a bit, mostly giveaways. The only tutorial I have ever posted was junked, and considered leeching (which, I honestly didn't know about because it was from a private sub-forum I didn't have access to.) That is also why I have a 20% warning level at the moment. Like I said, I haven't written many tutorials, but I do plan to contribute more in that way as well as giveaways. If it matters, I have no scam reports open on me, I've sold a few tags on the forum and everything went smoothly. The only neutral rep I have is from a gang rep, I got the original negatives removed, but the neutral is from someone

banned. I can't express how grateful I am to be given the opportunity to join the group in all honesty, and without further adieu, here are my ten contributions to the forum.

Oh and I should say, it says my account was applied to join via User CP back in May. This was because a friend got onto my computer when I was away from it, and thought it'd be funny to apply to several groups. I hope that doesn't effect my chances in any way, and I just wanted to clear it up. Also, all my threads that are Important are giveaways because I am most active there, I feel that I should give back to the community and that's what I was doing.

Sigma - October 4, 2012, 8:01 am

Well since there is no set application I will just say why. I have been on HF for 3 years now so I know all the rules and where everything is located, as some people would say, "I know this site like the back of my hand". I have contributed a lot of these 3 years in many ways. I have given ebooks, tutorials, helped out members, sold on the marketplace and donated. I am online almost 5 hours a day so I will always be here to help in anyway. I am very good at writing tutorials, ebooks and Ultimate Guides, I have received an award for my hard work on a "Ultimate Website Construction Guide" because the thread went into a lot of detail which became worthy of a sticky. I love to contribute to this forum and I have done so in many ways as you can see. You would not regret accepting me to Infamous I will keep my posts HQ, write tutorials, help other members, share knowledge and be there in every way possible to make the group more and more professional.. Thank you for letting me have this chance.

Well with no format I will go a little crazy. To start off I will put this post in. I am enlisting into the US Navy and by doing this I was given some nice info on how to get ready for basic and even special forces. I ship out 2012/12/12 for basic.

My personal info:

I am 18+

I am currently employed by the US Navy

I have not been with HF very long but I am an hq member

I am an avid gamer and I go crazy on the League of Legends

I live in the US east coast

I have skype and a mic and would be as active as you need me

I am a born leader

Here is my first post:

[Workout Program](#)

This is an in-depth guide on how to run properly. Most people just wing it which is not the best idea.

This is the second one I would like to share:

[Minecraft Help](#)

This is a post about me helping people with their minecraft servers. Just something to give back to the community.

Here is a post in reply to the coolest shit I have seen in a while. Defiantly worth checking out.

[Cool Shit](#)

This is not my thread but it is in reply to something cool as shit.

I have not made very many threads but I do read a lot and am a HQ user. Here are some posts of me helping people:

Why I would like to join Infamous:

I go above and beyond in everything that I do. I am looking for a group of people to call my brothers here on hackforums. I am looking for a group that I have a sense of pride from joining. I have never been a part of a hq group here on hackforums and would really like to carry the name. I have seen infamous around the forums and I think that they are one of the most HQ groups.

Thanks for reading my application. Best of luck everyone.

Hinata - October 4, 2012, 9:35 am

As there is no required post format I will just go ahead and post whatever I feel like I need to include.

I have been on HF for a few months. (Yes I know by looking at my REP and post count isn't the most convincing thing either.)

This is a HQ group and would be a great way to finally settle in to HF.

I plan on contributing much more to the site whenever I can. (That includes getting L33T, UB3R and donating whenever I can.)

I feel this would be a great experience in being apart of a amazing group with HQ Leaders and members.

I would share and contribute whatever I can do. You wouldn't regret this decision.

Oats Application

Hey there, i see my job on HF is to make people laugh and make the forum a funner place to be, yet remaining as high quality as i can without crossing the line of trolling and possibly offending other HF members.

I take a rather unusal approach when i am about to create a thread, i set a goal for the amount of posts i wish to receive, so far the highest as been 100 but now i have crossed this stepping stone on various occassions i have a thread in mind that will reach new heights for myself.

Here are some of the threads i have created in the past which i would say have some excitement to them.

[I made Omni website, he said i was weird.](#) - 155 replies

[Sent a present to Omni's house, appropriate gift?](#) - 104 replies

[Do you advertise HF? I do cause im a kewl kid! <3](#) - 108 replies

[Really offended by Omniscient.](#) - 109 replies

[Omni's Likes/Hates/Skills <3 Big unique list.](#) - 119 replies

I also used to help out in the minecraft section whilst i was an active player, one of my set goals is to help out on HF in areas that i am knowledgeable at.

[Minecraft | »Helpdesk« | ? OPEN ?](#) - 76 replies

Also offered various graphic services when i first started getting into photoshop.

[\[FREE\] Signatures - basic ?l33t/ub3r?](#)

And have hosted various giveaways here are a few,

[Giveaway \[1m\] x3 \[Winners Selected\] Closed](#)

[Giveaway \[500k\] x6 \[Winners Selected\] Closed](#)

[Giveaway \[1m\] non l33t/ub3r only \[CLOSED\]](#)

Sorry if i have gone over the 10 thread limit, i understand though adding in the thread names will of helped a little however.

Good luck to those who apply,
Oats.

Techie??? - October 4, 2012, 10:41 am

Hey there,

I would love to be in a group of reputed individuals who love to contribute to community in different ways, that's the main reason why I'm posting this reply to this thread. I'm not a frequent gamer or I don't participate much on Xbox live though I love to play FPS games and stuff like that. I contribute by quality posts rather than posting tutorials or creating threads, so I'm sorry if I can't link to much threads. It's better to help when it is needed and to people who deserve of in my opinion, so I usually post good replies to threads. I have spent a lot of time on this forum and by posting a good sum of posts, concentrating on quality than quantity.

Here are some links of threads which I think as contributions. You didn't mention threads, so I linked to some of my example posts to threads. I don't do giveaways publicly by a thread since it has turned out they are done for gaining reputation, but I do share stuff with people whom I think they deserve of. I hope this is not a group for just giveaways but contributing to a community by sharing knowledge.

Very HQ and great group to join. I used to be a part of but was removed because of inactivity . I would recommend each one of you to apply here ?

I am not applying this time as i have not much time to be active in it so don't want to waste the leaders time.

Good luck to all the members who are applying.

Guzzie - October 4, 2012, 11:19 am

I want to join Infamous because i'm a HQ user that deserves to be a part of this group.

I can distribute my knowledge of hacking,gaming, and that kind of things.

I will be active, and i will be posting a lot in the sub forum.

And i will try to post HQ tutorials in the forum.

I'm always open to people who need help with something.

And i wish good luck to all the people who apply.

And thanks for setting up this thread.

Keep the applications coming. If you have any questions feel free to ask. Make sure to actually take time in your application if you want to have a chance to be in Infamous. Sloppy applications will just be overlooked.

Seaking - October 4, 2012, 12:11 pm

I've helped many people out with issues or even offered advice. I'm willing to give and not expect back. I don't post to get noticed but to inform or explain.

My 10 posts wouldn't work due to my personal preference of sending a PM instead of posting it out. Hope you will consider me as an addition to this group, and if you have any questions for me feel free to ask. Thanks.

Bypass's application for Infamous

About me:

Name: Duncan

Gender: Male

Age: 17

Location: UK

Profession: Student

Skills:

Good with PPC

Active person

Calm and committed

Good gamer

Nice person to chat with

Smart

Helpful

Why I should be invited:

I don't want to make myself sound flawless because I'm not. But I have gave away many keys for programs such as MBAM and Windows 7. I have good English grammar and spelling. I try to my full potential at any task. I would be active in the sub-forum and helping others if they require it. I will give away things such as codes, keys etc. The thing I think is the best about me is my calmness. I can keep myself calm in any given situation because I have great self-control. I am a caring person as well I have helped people who have lost family or people who have been struck ill. Remember "you cannot hit a target you do not have." so that is why I am applying for the group.

Anything else to say?:

I would be honored if I was invited to join this group. Thank you Infamous owners for giving me a chance to join this group.

I believe I am a worthy candidate for this group here are ten of my threads linking to what I have given out and provided to hackforums.

Some things that might be useful that I can do:

- Networking, setting up booters using servers and custom scripts.
- Program in C# and make some game hacks in C++
- Video Editing
- A little webdesign
- I can set up Rats
- I can spread Rats pretty well.
- and many other things.

I would love to get a shot at this and would do the best I can.

I want to join InFaMoUs

I'll try to be active and helpful member and friendly with others.

My name is Patrick, from united states - florida, age: 14 years old. I live with my parents.

Nothing more nothing less.

Its your choice.

Greetings

Cyba - October 4, 2012, 1:28 pm

This is my requirement form.

Why I deserve to join InFaMoUs:

Well, I think that I'm a dedicated member who would love to support InFaMoUs. I will try and help everyone in the group for sure. I would be active in the sub forum as I'm already active on the forums and sub forums of groups which I'm in now. I would like to join because I know I could help get the public view about InFaMoUs to a high standard where I would be proud to represent a prestigious. I would also help anyone in the group to the best of my ability, in my opinion everyone is the same. I will try to help everyone in the group and make it the best it could possible be. If I got in I could also offer free stuff to members who I feel should get it. I'm not the person that likes to join a group because of the userbar or being popular, I would like to join to teach and learn some great things. I also would try to donate to the group any time I have the money and would provide my services to the group as best as possible, but at this moment I'm a little in debt I should say. I know I'm the right person to be chosen as I can change those who don't view this group in the prestigious light it should be portrayed in. In addition to this, I am a vigorous advocate of developing greater knowledge in the English language and perceive this as an opportunity to consolidate my current accomplishment and further improve upon that.

My Skills:

IMHO you can't know if someone is worthy to be apart of this group judging by only 10 posts. That specific user could have another side which is not shown in those "10 posts".

Nonetheless, good luck with your group nor should I command you, it's just my own opinion.

Good luck to all who is implying. I can vouch that Infamous was by far one of the best groups I've been in since 2009 when I first joined HF. Infamous along with TA are by far my favorite groups I've had the honor of being a part of. Anyone who is accepted, don't take it for granted, you will grow a strong bond with the members of the group and they will do their best to make sure you feel accepted and comfortable. Once again don't take acceptance for granted because it is very rare.

I'm going to miss Infamous for the time being. Just wanna say thanks to all of the Infamous members for allowing my black ass to be a part of the family. Hope to keep in touch on Skype. :)

On a positive note, good luck to everybody applying.

Guess I will give it a shot, hope I get in, will be my first group to be in

First off, I am mainly a helper here on HF. I haven't made many threads for releasing ebooks/paid items. I spend majority of my time in the Beginner Hacking section. I have nearly 300 posts there.

I like to pick out members that possibly have potential in the hacking department.

In this thread here: <https://hackforums.net/showthread.php?tid=2909009>

I help members through Cache's help desk

In this thread here:

<https://hackforums.net/showthread.php?tid=2855723>

I show new members what almost every feature in DC RAT does.

Now I don't have links to any other threads/posts however, you can go to the Beginner Hacking section and see me post there. I post a lot helping new members with their problems.

I hope I get accepted! Thanks for this opportunity :D

Tonight - October 4, 2012, 3:18 pm

Hey, I'm Saturday.

First off, I know how these recruitment threads go. I'm a leader myself so I realize how tedious it becomes to look over hundreds of applications. Let me just say that this is one of the only groups I've wanted to be a part of. I've been apart of almost every invite only group here but none really stuck out to me like Infamous.

If you're looking for a hard working member for your group, look no further.

????Chicago Bulls - October 4, 2012, 3:21 pm

First of all, i want to say giving out every member a chance to apply is great.

I have been an HF member for year about, and have been in 5 groups, as saying infamous and Illuminati are the two groups i have been striving for to get into.

I am a very active member here on Hackforums. I run a business and i am on everyday.

I am very mature and can prove i am quality, also doing quite a bit of contributions

I could also settle into this group.

Joining a group like this would be amazing.

The people in here are very helpful and nice, and i would love nothing more to be apart of it to also help.

I have done a pretty nice amount of contributions, But in this case, it probably doesn't matter.

Anyways, thanks for letting me apply.

Temper ? - October 4, 2012, 3:22 pm

Good luck to all applicants. May only the best be accepted.

Hello, I'm DNAS (pronounced D-N-A-S), and this is my InFaMoUs Application.

I'm not here to explain why you should let me join, or why I might be a better choice than others. Instead, I want to show you who I am and what I know and why I feel as if I belong within InFaMoUs.

To start off, I'm 21 years old and currently a senior at my university, my major being Network and

Cyber Security. Computing is a passion of mine, ever aspect there is and that is why I decided to do it as a career. I'm a very mature individual who enjoys balancing my nightlife between going out to clubs/bars with friends and both the friends I've come very accustom too online.

As far as my knowledge goes, I know a broad range from Blackhat activites to Whitehat. I associate as Whitehat now since I am only trying to help others with both computer issues or personal problems and dilemmas. I am very interested in Social Engineering and Human Manipulation, since in my mind, that is the greatest risk to any company or someone's identity, the human error. It's something I am always reading about on a daily basis.

Skills:XSS

SQLi

Remote Access Trojans & Theorcrafting Spreading Techniques

Networks and Routing

Linux and VMs

Anything Pentesting or Forensic Related

Debating and Discussion

Here are a few threads I'd like to show you that I feel contribute to the community:

<https://hackforums.net/showthread.php?tid=2897894>

<https://hackforums.net/showthread.php?tid=2656969>

<https://hackforums.net/showthread.php?tid=1798983>

You asked for ten threads and there are only seven here. The reason for this is I really shine within groups and most of my most acclaimed and intellectual threads/posts have been within the Serenity sub-forums and even Respawn sub-forums. I am a big debater and love having discussions with others which is why I have so many posts within the sub-forums there.

I take every group I'm a part as a privilege and treat my groups as a family. Like I said before, some of the best threads/posts I've ever written have been within the sub-forums. InFaMoUs and its members make me realize that myself and the members within the group are not far off from each other besides a userbar. I am always trying to help out as much as possible and always having people add me on skype if they need to talk. I've got enough experience over the years to be able to talk to anyone about almost anything and this makes it much easier to help others out.

Thanks for taking the time to read my application, if you have any further questions, please feel free to message me on skype. Thank you!

Hello all I would like to take this time to thank you for reading over my application to join the amazing group InFaMoUs. Let me start by stating a little about my self. I am 20 years old and I have a fiancé and she is great! I have been interested in all fields of technology since I was 10 years old. I started out making little music videos with video footage from dragon ball z. I had no clue at the time that starting there would lead me here. I remember the first operating system I ever used was Windows 98. So you may be asking yourself why should he join the group well I am not just a person that likes to sit around on the forums and have idol talks about who runs this and who is the biggest "bawoss" I like to have intelligent conversations and talk to intelligent people. I do not believe that a person should be judged by the color of their skin, their age or anything else similar. If someone is good at the job they do for example coding then they are a good coder if someone is good at hacking they are good at hacking plain as that. I love this field because there is always room to grow and work and figure new things out and exploit them. I have been looking to join a group and when I saw this thread I knew that I had to take my time and sit down and write out the best application that I could and hope that I am allowed to join.

My skills include:Coding-HTML, CSS, PHP, VB, C, a little perl and python

Hacking-(d)dos, doxing, SEing, SQLi, XSS

Whitehat

Marketing

Gamma

Ability to pick up on things very quickly

Please keep in mind I have only been here since the first of September.

Now another thing that you might notice is that I have a 20% warning level. A good friend of mine got scammed and I repped the guy for it. But judge dredd sent me a pm and a warning and told me I was not allowed to do that unless I was the one that got scammed. I have since read the help documents once again to make sure I understand all the rules and have had a great time on the forums since.

Again thank you for taking the time to read over my application. I hope you accept me and all I can bring to the table.

Hi, I am Wrath.

I was once a member of Propitious and I would like to see how it is in Infamous. I have not been open to join any groups lately and I want to check out Infamous to see its changes and maybe learn a thing or two from joining. I believe what shows my value as a member is the amount of tutorials and additional contributions I have made to the community. Another thing that demonstrates my

value as a member is my fidelity to the groups I am in. I am extremely loyal and dedicated to every group that I join and I will for sure give it my all if I were to be chosen to be a part in Infamous. I will wear the userbar, reflect a positive image towards the group and show what it means to be a member of Infamous.

About Me:

Personal-Hello Infamous, I would like to start off by saying thank you for this opportunity. So my name is Alex and I'm 19 years old. I live in Canada, Montreal to be exact. I work 40 hours a week until I start school again which should be in about 2 - 3 months. In my spare time I like to play video games, go out with friends, and most of all, browse Hackforums. I am a cool easy going guy and I'm the type of person to avoid an argument and if possible. However I wouldn't let anyone step all over me and take advantage of me. I'm very friendly and try to make as many friends as possible!

Hackforums-I am an active member that browses the forums minimum four hours every single day. I will not post in threads just to my post count, I post in threads that interest me and that I can give a good response to. That being said I try to keep my posts as high quality as possible. High quality meaning grammar wise, staying on topic, no trolling etc. I love helping out other members, I spend countless hours cracking/searching premium accounts just to give back to the community. When I have extra cash, I upgrade a member or buy stuff like Microsoft Points or Gamertags just to giveaway. I am a very giving person and do not expect anything in return.

Im going to make this plain and simple.

I want to be in a group because i want to join something that is not like the rest. like a non active subforum and random-ass members. i want to join something i can look forward too. and i want something i can contribute to. unlike other groups with all the same purpose in different words.

Mohatu - October 6, 2012, 3:03 am

I'm glad to see the recruitment thread open. I used to be in Propitious, so I know many of the current members of Infamous, although we have lost contact over the months. I could write a very long post about all my achievements, skills, and knowledge, but I think the best way to see someone for who they really are is to look at their past behavior. During my time on HF, I've been myself. I don't act like a big scary hacker or a 35 year old with a million to his name, because that's not who I am. I help people when help is needed, I don't give out false information or make up false stories to look like I know something I don't, and I actually treat people how I would like to be treated in return. An overly used process of judging someone here on HF is by looking at their past reputation, and if you look at mine you will not see a bunch of "Thanks for the \$0.10" or "Thanks for the giveaway", because I don't pursue reputation. I have found that if you are helpful and just act like yourself, it will come to you without asking. I do not troll, I advise. I have chosen to not be in any groups up until now because I did not want to do work for a group where the members do not form a community, but rather a melting pot of useless information. I want to be in Infamous, I want to contribute, and I want to be part of a community here on HF.

Endanger™ - October 6, 2012, 10:17 am

Name: Colin / Hazy

Age: 16

About Me:I am a Junior in High School. I like to play sports (Soccer and Basketball), and I have various hobbies such as surfing, snowboarding, longboarding, playing the guitar, and photography. I

have a girlfriend who I value more than anyone besides my family and am currently content with getting my life back on track. I am a very active person even though I do spend a lot of time on the internet. I love helping people out and do everything I can and love to give advice on areas that I can. I try to give back and contribute when I can considering most of my money goes to my real life expenses. I also love to do graphics on the side and really am interested in going for a career in graphics or computer programming.

Now here's more of my HF history:

Some contributions that I have made to HF are as followed:

Giveaways -

I have more threads in SF's but don't think I should post them

Business -

<https://hackforums.net/showthread.php?tid=2468659>

I spend a few hours each day on HF and figure that I post around a decent amount, while it might not be a ton, I post in sections I feel like I can contribute to and help out rather than make a half ass post to up my post count. I like to engage in discussions and try to interact with people as much as possible, so being in a group helps me interact on a personal basis and have better discussions with a lot of members than randomly posting in threads and trying to have conversations. I like to stay active in the Sub Forums more than HF itself usually.

The general reason why I should be picked for InFaMoUs:

I think that I generally deserve a spot in InFaMoUs because like any other person applying, I consider myself to be a high quality poster (sorry to use that phrase). I think that I am a very active member since I came back after quitting over the summer and I have a lot to offer like graphics, advice on various topics, and of course activity for the group. I would want to represent and think that InFaMoUs would be a really awesome group to be a part of.

Revenge - October 6, 2012, 10:18 am

Introduction

First of all, I would just like to say thank you for the opportunity to join InFamous. I think you have some of the best members on the site in your group and I wouldn't want you to change that at all, from the outside I think the group looks amazing and I would love to see how it operates from the inside. I also do not take this for granted at all, I honestly understand that you are going to get tons of applications but I still want to make mine my own by doing what I have always done which is just be truthful and write anything that I feel is necessary. I've heard from multiple members that InFamous is one of the best groups they have ever been in and that it is amazing to be in, I personally would love to be apart of this. Either way I hope you keep doing what you're doing now because personally I think it looks like a wonderful group.

Why should you choose me over any other member?

Well I think you should choose me over any other member for a number of reasons, one of them being that I'm super loyal and honest about everything the only example I can think of right now of me being loyal is in the gaming industry, I have co-lead a competitive sniping clan for call of duty for over 2 years and a lot of times it would have been easier for me to just join another one but that's not the type of person I am(I posted a thread on competitive sniping, I'll include the link [here](#)). I think I'm also contributing to HF in different ways, I could easily post 10 giveaways but I don't think that's really the point of this what so ever. I'm going to post 10 links that show I'm all around HF and not just one section, I think this is a better thing to do than just link some giveaways. I think I should also be chosen for this because I'm very easy to get along with and generally nice. I'm also very helpful and willing to put effort into it and that's for sure, I put a lot of effort into things. I also don't need attention for helping people, I have helped people via pm multiple times on this site, I think it's important that your not just trying to help people for attention. I show respect for every member around the forums, no matter who they are to a certain extent which is a very useful skill in my opinion. Currently, I am finding my feet in school so I am a little bit inactive but I will be sure to step that up soon but haven't said that I still nearly post here daily just not as much as I used to.

Rules, Announcements, News and Feedback:

This is probably one of my most active sections. I like to post here because I like to help new members and members a like with site problems that they have. I know what it's like to be a new member and how hard it can be but it's easy to learn when you're pointed in the right direction but I also go there for help because their is obviously somethings I don't know about the site as well.

An example of a thread I have compiled in this section:

<https://hackforums.net/showthread.php?tid=2897188>

The Lounge:

I used to post here a lot, not so much anymore but it's still a good place to chill and there has been many interesting threads in there that I quite enjoyed. Overall it's just a nice place to post and get your opinion across. Some examples of threads I have made in this section:

<https://hackforums.net/showthread.php?tid=2319862>

<https://hackforums.net/showthread.php?tid=2194874>

<https://hackforums.net/showthread.php?tid=2711170>

Science, Religion, Philosophy, and Politics:

Again I used to post here a lot more than I do now. I'm sure this one is self explanatory. I used to love debating and have multiple threads in the section:

<https://hackforums.net/showthread.php?tid=2757766>

<https://hackforums.net/showthread.php?tid=2752733>

<https://hackforums.net/showthread.php?tid=2708995>

<https://hackforums.net/showthread.php?tid=2748283>

Free Services and Giveaways/ Member contests:

I did say before that I didn't want to just fill my links up with giveaways but I think, I have included a good few examples outside this section so I will give just a few that I have done in this section:

<https://hackforums.net/showthread.php?tid=2284848>

<https://hackforums.net/showthread.php?tid=2232788>

<https://hackforums.net/showthread.php?tid=2823284>

Here's another thread that I have made that I put a lot of work into:

<https://hackforums.net/showthread.php?tid=2839729>

Why I want to join InFamous

I want to join InFamous for a number of reasons and I will start off by saying that I have always looked up to it as a group. I have nothing but upmost respect for the group. I think it's fantastic how high quality it has always stayed during it's time on hackforums. I would also like to say that I will be honest in this app and tell you that recently, I have totally lost my way on HF. I need something new and I think InFamous might just be the perfect thing for me. I currently have no direction what so ever on here and this has lead me to some inactivity but this has happened before and I have gotten through it but I need something new. I want a loyal group who will not judge me for who I am or anything and I'm sure that this is the place for that. I think it will help me on my journey on the site and I think it has a lot to offer me and I have a lot to offer the group. I like the prestige of the group also, I think it adds to the fact of being accepted when so few do and I would be truly honoured to be accepted. You have also asked for 10 posts so I will include them in a spoiler below, I haven't handpicked them as such but I have picked a different few just to show what I'm like and that I can be helpful. Thanks for the opportunity and I hope to hear back from you.

Name:

Things you do:

Well, I'm mostly a Java Coder. That being said, I'm also a packet sniffer and I tend to sniff packets around on almost anything. I'm also a semi-White-Hat, not as much though, I'm mostly just a black-hat or Coder, though I don't visit the coding sub-forums on here because, those have nothing related to the coding I do - which is coding for servers, mostly MapleStory.

Why you think you're of value to us:

I'm HQ. And I don't lie, obviously. I mean, you can check all my posts and replies to every thread I've ever visited on HF, and you'll never see a thread that has something with bad grammar, EVER. I post a lot as well, so you'd never see me inactive. Some things I don't know, and I wish to learn from other members of Infamous, which are of course HQ.

Hobbies, if any?:

Well, I have no hobby other than playing soccer, or GunZ. If hackforums is a hobby, then

hackforuming as well.

nul?l - October 6, 2012, 11:08 pm

I would love to join Infamous because I feel as though it's a terrific group and has HQ members and I will be treated with respect

I feel as though I am worthy enough to join because I have helped many people through out the forums and I love it, even if I can't help completely, I always respond. My hobbies involve playing video games, running, hanging out with people, hackforuming, and of course helping people.

I always try my hardest to have HQ posts. I always tell the truth and help as much as I can

Good luck to everyone that has applied:) Thanks for letting us apply:)

Name: Shannon.

Age: 14.

In one paragraph, describe your personality: I am a person that is not afraid to tell the truth. I will never stand for bullying and wrong-doing. I am a kind person that is really "out there". I always do everything I can to help out. I am a person that will give everyone a chance, and I do not pick favourites. If you respect me, I will respect you, but if you don't respect me, you won't get it from me.

Rate your grammar, on a scale from 1-10: I would rate it a 10.

How active are you on the computer?: I am very active. On a week day I can be on for around 5-6 hours and on a weekend I can be on for 10 or more hours.

Do you act differently on the internet, than you do in real life?: I do not act differently on the internet than real life.

Do you make income in real life or the internet?: I make an income on both the internet by selling goods and doing favours for people, and in real life by having a job.

How can you contribute to the group?: I can contribute the the group by making great tutorials, giving advise, helping people with requests, sharing unknown methods & being a great & friendly member.

I have constructed a few tutorials. When creating a tutorial I put a lot of effort in to it & put a huge amount of high quality information in the tutorial so that members can get as much information as possible, while sticking to the topic at hand.

When I am on this wonderful site, I am constantly giving high quality advise so that people can become better at what they are trying. There has never been a time when I have not been able to give constructive advise to another member, & I feel that Infamous would be greatly appreciative with my knowledge.

A lot of my time on HackForums is spent in the Graphics Request section, where I put a lot of time and effort to ensure that people get great graphics as they have requested. I am quite experienced at Photoshop, so I use that to give free, high quality graphics to the kind members of this site.

I am a smart person, so often I come up with some good ideas on how to make methods which have never been shared before, so that members can not pay for the service or item, but get it completely free. I have currently made one for L33T & UB3R members about Nike shoes, but I have a lot of new ideas that I will test then give to the members of HackForums.

If you ask anyone that has taken the time to know me, they will say that I am a great and friendly person. I am always going out of my way to help people no matter how big the job is & no matter who the person is, I will help.

I also want to join to meet new people and I feel that if I am a part of this group, I can develop a more trustworthy name.

I've been a member on this site for a long time and I'm hoping to contribute to this forum much more and I believe that I will be able to accomplish this with the help of Infamous.

Best of luck to all the members applying.

Looking forward to this. Ps. Nice group.

To me, InFaMoUs, is one of the most, if not the most, elite groups on HackForums. To me, InFaMoUs represents the most high quality users on the site, who rather than leech and don't contribute, use all of their accumulated knowledge and share it with the users of a site. They also seem to bond together, sharing with eachother rather than holding back selfishly. I am the same way. Anything I may know, I am more then willing the share my expertise with. I believe HackForums should be a tight bond of intelligent users, but that is the exact way I feel about your group. I would like to join this group, because I believe I have the standards for this group.

I would wear the userbar with proud, and post tutorials in the me of infamous.

I also like to debate with my fellow groupmembers about various subjects given inside the group. That was all.

Thanks

Legend Boy - October 7, 2012, 4:53 pm

Hello.

I'm Legend Boy, I'm 16 years old.

I want to join infamous because it's a HQ group, and it will be fun to spend some time with the other members, and share knowledge.

Personally, I do not think I have done a lot to HackForums :(, But I try to help as much as possible, I've done 2 giveaways, And I try to do as much as giveaways as I can.

I'm into coding, I code various languages, but I focus on android coding.

I occasionally game on my console but I'm not a big fan of gaming.

In the end, Thank you for giving me the opportunity to apply to this HQ Group.

XanaxKing - October 7, 2012, 4:57 pm

Well, I don't believe there is much to say in application quite like this. There's a good chance you've either seen me around, or not, and you would have a general idea of who I am and my demeanor. Sadly, I cannot provide an extensive array of Threads or Post's that would be define me as a good member. My values are not based on interacting with a whole group, I pride myself in my ability to relate to individuals. It's easy to be liked by a whole, but to really reach and touch each individual person in a different way is a completely different way of thinking. I am very good when it comes to relating to individuals, providing advice, experience, and just being there to listen. I love meeting and interacting with new people, as I really value the "family" aspect of people you meet. I am very giving, and many people who know me, know this. Nothing is awkward to me, which can be seen as a strength or weakness. But, it provides me a very good basis to really connect with people, because I can handle everything in a mature and understanding matter. If you've seen me around,

you know what I'm about. I've decided to link 3 threads, which display in a small example, who I am:

6. You may have a Wax Impaction.

And by trying to clean it out you probably pushed the wax into your ear further thus causing a popping sound. The popping sound is the air bubbles escaping from the wax and the eardrum.

Go and see your doctor and they have a solution that they use to clean your ears out with.

I have screwed up ear canals so my wax does not drain like its supposed to. I usually have this done once or twice a year.

10. Check for swollen or Blown Capacitors on the Power Board.

A blown Capacitor (Left) will cause possible turnoffs, Freezes, and eventually failure (Will not turn on or turn on but for a few seconds.). A Normal Capacitor (Right) does what it is designed to do.

[IMG]<http://i192.photobucket.com/albums/z74/mrnapolean/BlownCap.jpg>[/IMG]

[You can replace these by ordering the correct part from Here.](#)

To do this job will require advanced soldering experience as novice DIYers can screw up a board easily.

I would like to join InFamoUs. Why? That;s a good question. I'm not gonna be like most of the other members here, trying to spice up their applications with random BS colors and crap. No, I'm a straight shooter; straight to the point, no beating around the bush.

I'm fucking awesome. There's no doubt about it. Ask anyone. Another reason I should be allowed to join you group of awesome people is becaus you too, are awesome. It doesn't take a genius to figure out the chemistry. Also, I am HQ. Look through my posts. Try and find a LQ post. I double dare you. I'm also lacking a userbar. It'd be free advertising.

Dear Sirs

This will be my application to apply for your group.

I believe I've made quite a name of myself during the last few months on this forum, and I think that almost every member have come across one of my threads at some point. I strive to be as high quality as possible, without lacking the attributes this forum require.

I've been giving away lots of products in my threads hoping that those people who receive the products will one day begin giving to the community too.

I have given away a lot of prizes in various contests, though I do not have those threads for this showcase as the threads have either been junked or was created by other members - and I merely donated the prizes.

Among the many things I've been giving away there's VPN subscriptions, booter subscriptions, cash prizes of 80 USD and inferior cash prizes, different accounts and a lot more.

What I'm doing on the site actually isn't as important as what I've done off the site; I'm helping new members with hacking problems daily, I've donated some cash to more than 20 people to give them the final cash in order to upgrade on the forums, I've created numerous graphics for a lot of members and I just do my best to help others in general.

Below you'll find a list of the products I'm currently offering and their thread links (the bottom two threads are two contests I hosted a long time ago; the only ones that weren't junked):

[\[?\] SKYPE RESOLVER - DIRECT LINK IN THREAD!](#)

[\[?\] HIGH QUALITY 'DARK' AVATARS](#)

Go ahead sir, by all means. Just so you know, Im not a programmer. I have to do research in regards to coding. Most of my stuff is utility based, and is VERY RARELY pretty to any extent, and can in almost all instances be done in "some better way", key point, it does what I want, it WORKS (most of the time?), it takes me a while.

Again, Im not a programmer. I just want it to work, and I make it do exactly that, and nothing more.

Hi, my name is ralph and I'm a 19 year old guy from Lebanon, I know how to html/css, a bit of php, I'm starting to learn java, and I have a passion for design.

Throughout my years on hackforums I have contributed a lot to the community, I have made many giveaway threads, a lot of contests, and generally helped members with their problems.

I am very active in the graphics section, that is where I spend most of my time on hackforums. I also check the website construction forum to see if there is any member in need of help.

Some of my latest contributions would be:

Here are some posts where I recently helped members:

I made a free signature for rPlus:

I always help members on skype, and I do whatever they ask me to do.

I can show proof if you want (well not really because I recently had to format my pc to downgrade from windows 8 to windows 7) but as I said I always help members on skype so maybe by the time you pm I'd probably have helped a couple of people :)

I'm a very active member, although there were times (sometimes months) I had to stay off HF because of school. But now I'm in University so no more inactive periods.

I have always wanted to join InFaMoUs, I think it is one of the most HQ groups here on HF, and it would be a very big deal for me if I were to be accepted.

I want to join to learn from the members of the group and help them at the same time.

(I'm sorry that my post is so big but as I said before it is a big deal for me to be accepted so I have to give it my best)

+Reckless - October 22, 2012, 10:52 am

Hello. I think that I should be added to the group infamous because I am dedicated, helpful and respectful. Although not everyone knows me on the forum,

I feel that I help people as much as I can. Although I am not that known I try to remain as HQ as I possibly can and am kind to everyone. If someone asks me a question I will always respond with an answer if I know the solution. If people need help in any way possible (be it emotional support, computer questions or something else)

I will always try my best. If you feel down or need help with something, talk to me.

I personally do not think that I am better than anyone on the forum and respect everyone for who they

are and not what they are seen to be. Everyone has my respect, you don't need to gain it, you can only lose it.

Now I will start to talk about what I would do should I be accepted into the group...

If I were to be accepted I would be more HQ than ever, I would proudly wear the user bar and would use it greatly, not to brag, but to be seen as a member who is HQ and helpful. I will never let the group down and will be extremely active, if there where any group projects that needed to be done I would do them with no problem at all. I would also help leaders if they needed it.

About me...

Name: Louis

Age: 16

People Describe me as?: Caring and funny.

Finally I would like to thank you for this great opportunity to apply to get into this group, should you want to know anything else feel free to PM me with the questions. Also, below are my contribution threads.

A little about myself:

Name: Devon

Age: 16

Time-Zone: EST

Hobbies: Learning programming. I'm very much into Python right now. I also enjoy overall computing, learning how to keep myself virus free. I also enjoy playing video-games a lot and listening to music. I most commonly listen to electronic music. Such as Trance/Electronic, that sort of thing. I listen to many other genres too.

Grammatical skills: 9.9 I speak and write/type very fluent English. I proofread everything.

Application:

I believe I should receive an invitation to Infamous for various reasons. The most important being, I'm a very diverse and multi-talented person. Especially when it comes to computers.

I know basic php, some Python, Html, Css and Batch. I'm more than familiar with the Windows operating system and am currently increasing my skills with various Linux distributions. I can code basic, dynamic websites. I build computers. Also, I am a beast when it comes to Networking.

All in all, I'm a grey-hat. I do not limit myself to either because that is silly. I do as I please. I'm a very active, polite and quality member on Hackforums. I've held several giveaways, most of which can be found listed below.

I spend a lot of time on my computer and I'm always learning new things. I'm highly interested in learning more about hacking, as well as learning more about the computer world as well.

Thank you for your time.
