Why Upgrade:

1= my country has no paypal coverage

2= i plan to find some testers and sell a new type of service and members tend to trust l33ts and ub3rs only

3= being a l33t gives you ego boost and energy

Other Info: What else? I'm a php and vb programmer with a few hacking applications of my own. If you give me some ad-free webspace, i can provide something quite amazing [which is an original service, not a hack tool].

I deserve this upgrade because i had lot of expeirience in helping members. But the problem is that most of the members trust only ub3r or only L33T members. I think i would be a great L33T member, i am very trustful. Registered members are not allowed to check all the forums. I want to increase my knowledge. I become much better since i use HF, i hope i can give back something as a L33T member. I wish you accept my application. Thank you!

Why you would like this Upgrade: I'm a very helpful member, I do my best to please and I distribute very helpful posts, threads and even programs. I learn each day, and what I learn I give out. Each day I'm working hard to please and for people to be happy. Hackers rule, grow and destroy. I hope to distribute more in the future, I am extremely active and I check the forums each day. Sometimes I would spend even hours posting replies to threads that could benefit someone, and sometimes I would even go to a ton of effort to do so. I'm asking for this upgrade so I could benefit others more,

and I won't lie, but it will help me get more stuff (not just that, rep is important too--which I hope to gain a lot of in the future!). So please upgrade me if you need to pick one, good luck to all and have a nice day.

Other Information: Thanks for the great giveaway, HackForums is really lucky to have such kind people like yourself.

Why you would like this Upgrade:

I try to be as HQ as possible, although I'm not the person to decide if I'm HQ or not. I'm very active, I'm on 5+ hours a day. I try to be as helpful and friendly as possible. Over the 5 months I've been here I've accumulated 50+ positive reputation, no negative and 3 neutrals. although the neutrals are for stupid reason for the most part.

With l33t I will be able to post in all sub forums and I'd love to take advantage of that. I'd be able to do giveaways because I could post threads in the giveaways section. I'd also like to give rep users who I feel are worthy. And post more than 20 times per 24 hour in the lounge ?

Other Information: I would've bough l33t a long time ago but I am unable to due to insufficient funds so this would be helping me out a lot.

I also have fair grammar 8.5/10 I will be always stay as HQ & Help the community much as possible. This is the reason why I wished to get upgraded.

That is all i want to say about myself in the application of this upgrade competition.
Best of luck to all the participants entering in this competition.

- Being able to post more in various underforums, to get more "integrated" to HackForums
- Bee able to learn more about money making, so I can donate more to the fight against Breast Cancer (Been supporting the fight against Breast Cancer since 2008)

Other Information: Why I haven't bought L33T already:

Well, I can't afford it, cause the most of my money goes for my grandmother & donating to the fight against breast cancer

The rest of the money I got left, I have to use to pay rent, food, etc. Btw, thank you for this contest! :]

Why you would like this Upgrade: I would like to get this upgrade because i think i could help the society by making them aware of the legit ellers by giving good rep and the bad sellers by giving bad rep. I have already giving two scam reports making the community aware of who are bad people.

Also, I am an active user
