Yes pl0x. I would like this method so nobody else can have it.

J???? - October 5, 2012, 9:41 pm

I think I deserve this because I am a high quality member only seeking to earn money so I can make money. Also, some money that I make I plan on going into another HF donation.

Swiper - October 5, 2012, 9:43 pm

I would like this method because I have a PayPal with fake info because my real one got limited because they thought I was "gambling". With this new prepaid visa, I could verify my PayPal and invest in making money through PPC. I am also running low on food here in my apartment so that would be awesome too! Thanks for this giveaway!

Belligerent - October 5, 2012, 9:43 pm

I believe I deserve this method because through my time at HF, I've done various free and paid

services, some up to 300+ each, and I have not had a single scam report opened in this time.
Furthermore, I've tried to help out where I can, and I think I am a genuinely well liked member of this community.

Regards,
Neal.

I would love to have this method.
I think I should be given this method because I could actually make some money.
Some of my tries failed really bad.
I think I am a pretty helpful and contributing member, as you can check from my posts.
I'd also donate to HF if I could get some money, but I can't so far.
Thanks in advance and thanks for your contribution.

Haruhi Suzumiya - October 5, 2012, 9:47 pm

I couldn't say I deserve this more then some people, but I wouldn't let the method go to waste :)
I wouldn't spread it or sell it, keep it private, then use it to fund some of my work.

-Haruhi.

G?dly - October 5, 2012, 9:48 pm

I would like this method just to see if it is actually legit, why else?

Cryptography - October 5, 2012, 9:53 pm

Would love to have this method in-order to know what kind of methods in this internet are out there and in-order to look for other exploits as well. I wouldn't over use or saturate the method and I won't let it go to waste as well. I have helped a lot of HF members in the past so I think I deserve this. I have also been here in HF for about sometime already.. Hope you consider my post.

Prettykitty - October 5, 2012, 9:55 pm

wud love this method because I am in debt because of hf members

It ain't hard to tell, I excel, then prevail
The master is contacted, I attract clientele
My rep check is life or death, breathin a sniper's breath
I exhale the yellow smoke of buddha through righteous steps
Deep like The Shinin', sparkle like a diamond
Sneak a uzi on the island in my army jacket linin'
Hit the forums like a comet, invasion
Number is like the Afrocentric Asian, half-man, half-amazin'
Cause in my physical, I can express through song
Delete stress like Motrin, then extend strong
I drank Moet with Medusa, give her shotguns in hell
From the spliff that I lift and inhale, it ain't hard to tell

The buddha monk's in your trunk, turn the bass up
Not stories by Aesop, place your loot up, parties I shoot up
Number, I analyze, drop a method, inhale from the L
School a fool well, you feel it like braille
It ain't hard to tell, I kick a skill like Shaquille holds a pill
Vocabulary spills I'm +III+

plus +Matic+, I freak beats slam it like Iron Shiek
Sell like a hoe with correct techniques
So analyze me, surprise me, but can't magmatize me
Scannin while you're plannin ways to sabotage me
I leave em froze like her-on in your nose
Numba'll rock well, it ain't hard to tell

This rhythmic explosion, is what your frame of mind has chosen
I'll leave your brain stimulated, niggaz is frozen
Speak with criminal slang, begin like a violin
End like Leviathan, it's deep well let me try again
Wisdom be leakin out my grapefruit troop
I dominate break loops, givin mics men-e-straul cycles
Street's disciple, I rock beats that's mega trifle
And groovy but smoother than moves by Villanova
You're still a soldier, I'm like Sly Stone in Cobra
Packin like a rasta in the weed spot
Vocals'll squeeze glocks, leechers eavesdrop
Though they need not to sneak
My poetry's deep, I never fell
Numba's raps should be locked in a cell
It ain't hard to tell

Credits to Nas, just wanted to post something deep, this basically described it.
