Thread: [\[Source\] Blue Theme - With glowing buttons and drop shadow](#)

BlackCap - October 7, 2012, 9:00 am

[noXxio](#) asked me to make him a blue form with system buttons that could glow outside the form. How do you think I did?

Source: <https://dl.dropbox.com/u/69377299/BlueThem.zip> (Yeah, I typed a little to fast and where to lazy to fix it)

This theme is very nice, such as all your other stuff.

I just followed his instructions really, he never told me that it where an excisting theme.

So it's a windows 8 form is it? I haven't looked at the windows 8 preview yet..

I think it's just you. Try right-clicking it and chose "show image", and if everything else fails you could download the exe.
