How to get the pack?.

What is included in this pack?.

-2 Avatars

-2 Signatures

-Font Used

-Fully Editable .PSD file's, all layer's are labeled so you do not get confused.

Preview:{now for the avatar #1 i made just 1 shine / diamond look, you can copy the layer and move over each character / make a animated avatar out of them.}

Thanks a lot for making this free, seems very simple but effective, plus we can edit it which is great.
