Vagex BOT

This is the Vagex bot, it's not mine I got it off the internet 1-2 years ago, still working although I think you can't find it anymore.

Virus scan:

<https://www.virustotal.com/file/1478cd8e458367059d86bdbbc61d01abd170989d42cba0e9608fd1da046c3b259/analysis/>

So don't mind those 3 things, like I said I've been using it for 1-2 years and I generated over 300k credits, nothing got detected by avira, malwarebytes and it didn't detect like a harmful file. Plus this - http://www.symantec.com/security_response/writeup.jsp?docid=2010-051308-1854-99

Want the program, huh? You need to register under my referral on VAGEX and accept to earn through it, after registering please PM me your username and I shall send you the bot.

Also if you like post here in the thread if you would like to keep it alive! <3
