Thread: [\[TuT\]How to DOX Xbox/XBOX Live Accounts\[TuT\]](#)

LaxyHF - October 12, 2012, 4:57 pm

Disclaimer: I (Laxy) have no involvement in what you do with this tutorial. I am not saying doxing accounts is a good thing, I am only trying to help you guys out. During this tutorial you will be discovering how to gain someone's personal information via Xbox Customer Support. (UK/US/CA/AUS). This tutorial does contain one rule: you do not DOX any accounts from this list (<http://cl1p.net/originalgamertag/>). This is a warning; bad things will happen if you do.

I will not help you reset the tag.

Credits:

Me - For researching and writing the method

So let's get started!

Numbers:

Microsoft PC Support: 18667272338

Xbox LIVE Support (United Kingdom): 4408005871102

Xbox LIVE Support (United States): 18004699269

This tutorial is going to be colour coded.

What you are actually going to be doing.

During this tutorial you are going to be learning a very valuable skill. You are going to be learning how to DOX an Xbox LIVE account via Xbox Customer Support. Throughout this tutorial you are going to be learning what to do and what not to do. It's always best to learn about some of the stuff in this tutorial before you actually go and perform it. You are going to need a reference number from Xbox Customer Support (this will be explained further into the tutorial). This is probably the most important part of this entire tutorial as it is the key to getting a successful DOX.

Step 1: Getting a working reference number.

From reading above, you will probably have learned the importance of a reference number. This is probably the hardest thing to do without the entire tutorial. You need to be careful as the representatives are sneaky and will just give you a non-working reference number. Therefore you need to get a fully working one. You may ask yourself how? This is how:

Conversation: (between you and the support representative, he/she's colour will be in green your colour is red).

1/ Call Xbox Customer support (the correct number for your region) and hit the number two on the keypad five times. This is going to put you straight through to a support representative.

"Hello, thank you for calling Xbox Customer Support my name is Monster how may I help you?"

"Hello Monster, my name is (yourname) and I've been having some issues with a reference number that I received earlier from one of your colleagues."

"Oh sorry (yourname) is it possible to get that reference number quickly? "

"Sorry no, I threw it away since it didn't work.. I'm sorry I never knew I had to keep it."

"That's okay (yourname) what is the gamertag on the account?"

(Here you say what gamertag you are trying to DOX..)

"The gamertag is (gamertag you are trying to DOX)"

"Okay, just give me a second to pull that up."

"Okay, thanks."

"Okay, I've got the account. Can we go through a few verification steps if you don't mind?"

"Yeah sure."

"Okay then sir, what is the first name and email address on the account"

"Yes the email address is: randomemail@me.com and the name is 'random'.

"Oh, I'm ever so sorry. I need to dash off back to a personal family meeting. Is there any way I can grab a new reference number, one that actually works?"

"Oh. Okay then sir, just give me a moment. (Here is where they are attaching a reference number to the account). Okay this is your reference number: (It should start with the numbers '115' and is 10 – 15 digits long).

"(Repeat the reference number so they can confirm it) Thanks! I will definitely Call back later, thanks for being such a great help (Dox)!"

"No problem sir, thanks for calling Xbox Customer Support and have a great day."

Step 2: Using the reference number you just got from Xbox Customer Support.

Okay, so if you got this far, congratulations! You are one step closer to DOXing an Xbox LIVE account. What you want to do is call Microsoft PC Support (number at the top of the tutorial) and once you hear the robot on the phone; press the number one five times. This will put you straight through to a representative, you may be on hold for a while as they do get a lot of calls an hour. In the usual style of this tutorial I will do a conversation log like normal. Just some tips for you here:

Give them the reference number and no name, so when they say (again green representative colour) "Hello, thank you for contacting Microsoft PC safety what is your case number and name please?" You just want to say the case number (reference number).

And you want to say "Hello, I was told to come here so I can make sure the information on my account is correct. As my brother made the account and he is recently deceased". This will make them feel sympathetic towards you and they will try to make you happy.

Same colours as before, you are red and the support rep is green.

"Hello and welcome to Microsoft PC safety, what is your name and case number?"

"Hello and my case number is: (say your reference number)"

"Okay sir, what seems to be the problem?"

"I just need to verify the information on my account, as it used to be my brothers account but he is now deceased."

"Okay sir, I'm sorry to hear that. What information would you like to verify?"

"I just need to make sure the name on the account has changed properly, as I called earlier to get it changed but I lost the connection with the representative."

"Okay sir, just one moment."

"Okay the name on the account is.."

Let the DOXing commence.

Hey guys, just typed this up. Took me a while to compose, so a simple thanks and some feedback is greatly appreciated.

**Silence \_** - October 12, 2012, 4:58 pm

I was going to read this, and then i noticed that you used black text on a dark background which makes it hard to read. I'm sure it is a good guide nonetheless.

**LaxyHF** - October 12, 2012, 4:59 pm

I'll change it now, thanks for the feedback.

EDIT: changed colours for you man! ?

**senorheff** - October 12, 2012, 5:03 pm

Sweet tutorial. Keep up the good work :)

Thanks man, the feedback means alot! ?

**MineSQL** - October 12, 2012, 9:45 pm

I think you leaked this from a ebook i have, please cite your sources at the bottom of your tutorial.

**Mycro** - October 12, 2012, 9:55 pm

Wow man this is pretty legit, if you made this. But if this is leaked from Legit™'s ebook, please give him credit.

**LaxyHF** - October 13, 2012, 12:56 pm

Name of your E-Book and where can I get it to see if it's the same?

**VaMpZz** - December 30, 2012, 6:13 pm

thank you so much! i always wanted to know how to do this

wait, once they give you the name on the account then what do you do to take the account? they arent giving you the password so how do you get it

**xSystemNightmare** - December 30, 2012, 10:17 pm

Decent tut I really like this good job on this thread.

**tenthfeb** - January 3, 2013, 12:52 pm

wow great tut. But is MS PC Safety going to give you the password aswell?

**Mr. Fedora** - January 3, 2013, 3:53 pm

i like this. it is cool. it is good trick.

**hellish73** - January 3, 2013, 4:39 pm

Epic tut, keep up the good work ;)

**percroy2** - January 3, 2013, 4:43 pm

I really like this good job on this thread.

**WhatTheF** - January 18, 2013, 1:24 pm

What the? he asked me 20 thousand questions. the call ended with him giving me a reference number starting of with 119 instead of 115 so i know i had failed. But he asked me Q's like "where did you put in the reference number when it was given to you?" "Was it put in through a console or website?" I said website and then he gave me the 119 reference number..

**CryptGenius** - January 18, 2013, 2:04 pm

Good methode bro, thats easy to understand!

**hiraeth.** - January 19, 2013, 3:55 am

Wow. Nice tut. Many regards and much respect paid towards you!

**plexy** - July 5, 2013, 7:26 pm

This is a great tutorial! I just don't understand the ending to it as to what i'm supposed to say to get all the info to get on the account?

**V.aporize** - July 10, 2013, 12:50 pm

Thanks man, this tut is very detailed and very useful.

**thyduke** - July 10, 2013, 12:55 pm

Thanks for this tutorial. I am going to try this.

**grr32** - July 31, 2013, 1:05 pm

Thanks for the tutorial, will have to try it soon. As for the guy above who experienced failure, it's would be safe to assume that you won't always get matched up with someone so willing.. also maybe some reps have caught onto it :P

**Restrict** - *September 25, 2013, 12:36 am*

Great Job, Must have took time. I might have to use this sometime in the future.

**Exactly** - *May 10, 2014, 8:52 am*

I will definitely try this out today, nice job on the tutorial!

**Shike** - *May 10, 2014, 8:53 am*

(May 10, 2014 08:52 AM)Exactly Wrote: [\[CITE\]](#) I will definitely try this out today, nice job on the tutorial!

Good luck ? 2 year old post, seems like it'll work ?
