Thread: [\[HD::1080p\]Emissary NET 1.0.4 Preview Video](#)

Coding4Noobs - October 13, 2012, 8:52 am

Software manager didnt load because i forgot to right click :/ but it normally takes about 15 seconds to load all installed software

And Disable Remote Input wasnt enabled because i havent released the new stub yet.

redpois0n - October 13, 2012, 9:08 am

Very nice bro, the only thing I dont like with emissary is the {}
(I like everything I have seen with it)

iSevere - October 13, 2012, 9:11 am

Very good rat . Vouch for this guy .

Coding4Noobs - October 13, 2012, 12:07 pm

ive been slowing remove the {} from all of our logos, when i register emissary solutions as an official company in march when i do my taxes i dont wanna have the {} either it does not look professional

RapRob - October 13, 2012, 12:10 pm

What's up with all these RAT's popping up ?

Not saying it's a bad thing just curious. (Maybe ppl like making rats.)

eXero - October 13, 2012, 12:15 pm

I watched the whole thing. I'm jealous. So sexy...

sniper_x3 - October 13, 2012, 12:20 pm

Coding4noobs is one of the most experienced RAT coder on hf

1) Paradox RAT - He started the project then later sold it someone else as he didnt had time to update it .

2) Emissary RAT - His second RAT project has been up for 6 months already.

"What's up with all these RAT's popping up ? " <- didnt sound good to me .

This isnt just popping up, its been out since april ^.^ i just dont advertise it as much as others nor do

i pay others to advertise for me.

Also, just so you guys can see the optimization i have put into the remote desktop, the average packet was around 32 - 64kb, my screen resolution is: 1920, 1080, average screen shot is around 1.04mb so about 1000kb, :) hows that for the quality i was getting + speed with the compression?

LaxyHF - October 13, 2012, 1:23 pm

Very good program, vouch for this ?

organic - October 13, 2012, 1:45 pm

Can you put a password retriever in the RAT? My "grandma" always forgets her password so I'd like to have it saved if she needed it again.

Coding4Noobs - October 13, 2012, 1:59 pm

I started working on that feature last weekend, should be in by next week :/

Dark_Noodles - October 13, 2012, 7:28 pm

That looks nice as hell! Good job Jordan, keep it up.

Process - October 13, 2012, 7:31 pm

Very nice! Might buy this if I ever get sick of Blackshades.

Coding4Noobs - October 14, 2012, 12:14 am

Cool. Im working on some new features right now

Ill make another video when im done. Tomorrow ill also do a joinme session if you guys wanna see it live.
