Thread: [Skype bot \[source\]](#)

BlissEsso - October 14, 2012, 7:49 am

Hey HF,

I just thought i would release my Skype bot, and if you like it pm me for the source so you can tweak it to your needs. It is no where near finished as i would still like to add a profile copier. but it will always remain open to you HF.

note:Skype Resolver isn't working anymore but the code is good, so u can just change API.

If you do use my source please give credits, as i support leaching for learning but claiming something of your own that you didn't make from scratch is wrong with out giving credits to the creator.

[Virus scan link @virustotal](#)

[Skypebot here](#)

enjoy guys :D

enjoy guys :DThis is the coding section just release the source with a password this isn't anything special anyways.

BlissEsso - October 14, 2012, 9:18 am

Sorry didnt seem like a hacktool, nothing special no but might help someone

Vincent1468 - October 14, 2012, 9:59 am

To be honest it really doesnt look good, also it is more a skype spammer than a bot.

hansbald - October 15, 2012, 12:33 pm

Have the Source a Auto Accept for Skype API? I Search one

UB3RGamer - *October 16, 2012, 4:27 am*

where the the source of this thing?

BlissEsso - *October 16, 2012, 5:05 am*
