Thread: [Chat Avenue - Are you able to get the admin's password via forums? \[REWARD\]](#)

Barefoot Contessa - October 17, 2012, 12:56 am

Looking for people that are able to SQL inject. Previous things have been done on this site. Use the search function. Mainly looking to mess with the forums. Please reply or pm me if you're interested.

It's not being able to SQL inject, it's about finding a hole that you can go over injecting. Also, talk with Downfall, I think he already hacked the site before.

Thanks for the reply, I've contacted him earlier.

There's more vulnerabilities than SQL injection you know?

Well I'm willing to pay lol but a partnership would be nice too. I have history with the site.

Seeming to have no luck on my own. If you're able to get passwords like another user here did that'd be great. Reward is pending.
