Thread: [SHA1 Hash decrypt](#)

AZ Don - October 17, 2012, 5:58 pm

Hey guys Could you please decrypt this sha1?

a1566aad838e2b1cb181cd1084c773e258c30a6e

Thanks alot!

cryptforyou. - October 18, 2012, 3:17 pm

Vouch for this member he is dumb..

Don't trust him.

OT:You calling yourself as a hacker ? but you don't know how to decrypt sha1 ahahhaha

Teferi - October 18, 2012, 3:30 pm

@ above,

What the F**k are you talking about.

sha1 is a one way algo you fucking moron. you can just compare it to other hashed value being stored somewhere like database. you cant decrypt it but you can think of it as 'cracking' bitch

Teferi - October 19, 2012, 1:46 am

I'm talking about cryptforyou.

He edited his post now, But it said something like this:

Quote: Vouch for this member! he is legit

AZ Don - *October 19, 2012, 6:31 am*

Yeah that was the moment i got his paypal account and he was begging me to give it back, and then he's being nice.
