Thread: [\[TUT\] How To Use The DarkCome Rat 5.x Series \[HD\] - New Thread Layout & Videos!](#)

J?ck - October 18, 2012, 9:55 am

If you know about the DarkComet RAT these aren't the tutorials for you.

What is Darkcomet?

The Darkcomet RAT is a free alternative to paid RAT's such as Blackshades or Cybergate. It is very popular in it's user base but is sadly now dead in development due to him saying that he never intended his software to be misused.

SANTERMY - October 21, 2012, 3:08 pm

Great Video! Thanks for share Buddy :)

J?ck - October 21, 2012, 3:24 pm

No problem, thanks for having a look at my videos :)

Hexabit - October 23, 2012, 7:41 am

Thanks for this great tutorial :) !

posh - October 23, 2012, 8:11 am

Great tutorial! thanks for it !

:)

ven0m - October 23, 2012, 8:13 am

Thanks a lot for sharing it. Keep it up.

J?ck - October 23, 2012, 1:31 pm

Thankyou people it's appreciated that you look at my videos.

lorenzospook - October 25, 2012, 9:33 am

where can i download progames liek ddos and stuff ? and thatprogame u are using

s0dium. - October 25, 2012, 9:34 am

Thanks for the effort. Great tutorial.

J?ck - October 25, 2012, 9:35 am

I recommend you search the forum. The program I'm using can be downloaded with a simple Google search if you can't find it. Repost here.

iReal - November 20, 2012, 3:34 pm

Great Video!

Thanks for share dude !

sryker1911 - November 20, 2012, 5:36 pm

Is it even worth to use now that the developer had release a program to find all versions of DarkComet server? Like I setup a server to control my servers (legit servers) but, all the antivirus programs I have used immediately flag it as being a virus. This never was the case until the tool was posted.

Asthuran - November 24, 2012, 6:46 pm

Great tutorials, I'm trying to learn as much as I can and these will be of great assistance.

J?ck - *November 25, 2012, 1:53 am*

No problem, any questions just ask people and I'll respond.
