Thread: [\[CHEAP\]Adding Functionality to Websites \\$3-\\$10\[/CHEAP\]](#)

ChineseFountain - March 2, 2010, 7:50 pm

Hello Everyone!

I am a PHP programmer and I will be helping out the community by adding PHP and MySQL functionality to your website!

My services:

- I will add functionality to a HTML template (content updating, user accounts, etc) - Package One
- I will complete a partially completed PHP website - Package Two
- Database setup (if you already have PHP functionality, but need help rigging your site with your database)

NOTE: I WILL NOT BE DESIGNING YOUR WEBSITE OR TRANSFORMING IT FROM PSD TO HTML!!!!

Here are my generalized package prices:

Package one: - \$6 - \$10 USD (depending on what you need)

Package two - \$4 (depending on how much it has been completed)

Package three - \$3 - \$5 (depending on what functionality your database should use)

Here are my terms: IF YOU DON'T WANT TO FOLLOW THESE, DON'T ASK ME FOR YOUR HELP

- 1) You PM me what you want => I provide a quote => You agree or disagree => if agreed, I complete what you want, then I show you, and you pay. I will not hand over the source without you paying. This is to prevent people scamming me of my hard work. I can and WILL go to the authorities if you scam.
- 2) If I complete it, and you find a piece missing, I will fix it for free if it was in your original idea. If it wasn't in your original plan, but you want it added, I will add it free of charge if it is a small feature.
- 3) Once you buy it from me, it is your property, but I do provide support for 30 days after you purchase it. I test all my websites thoroughly, and they should be bug free, but if you find a bug I will fix it free of charge.
- 4) If you will be having a forum along with your website, and you would like me to join to provide support on it to the users, I will be available (not required by any means), if you choose to, to perform bug fixes, during the 30 day period. After that period, I won't be performing the fixes.
- 5) You can still go the webmaster section and I'll probably help you after the 30 days. :D

Vouches
none yet

If I successfully complete an order for you, please vouch for me. It is greatly appreciated. :)

PLEASE NOTE: I RESERVE THE RIGHT TO DECLINE AN ORDER AT MY OWN DISCRETION
FOR ANY REASON.

Thanks. :)
