Thread: [\[HF Userscript \] Hide Thread Ratings \[V 1.0.1 \]](#)

_DeNy - October 21, 2012, 9:46 pm

What this script does: Like the title implies, this script hides the star ratings for every thread in every section as well as the stars when viewing a thread

What exactly would be the point in hiding the ratings?

Some people are annoyed by them or don't find them necessary and they kind of pop out if you're trying to ignore them.

GJ OP, I will be using this!

Good question.

I make threads based off suggestions. That should be a good enough point.

What exactly is the point of showing the ratings? No point.

Some people do, some don't.

Personally I never would take the ratings seriously because one butthurt kid could 1 star a thread with no ratings.

This is what I need! Thank you for this! I find the thread ratings very annoying.

Thank you, again.

Just for people who find it annoying to see a bunch of gold stars on their page. Anyways, always a pleasure to download these scripts.
