Thread: [\[MFE\] HUGE list of 'Run' commands!](#)

?ikism? - October 24, 2012, 4:41 am

Hi members! ?

(excuse my english, it's not my foreign language)

Today I'm sharing a 'must for everyone'. Huge list of 'Run' commands thats VERY usefull!

To open 'Run' window, either press Windows logo key + R OR go to 'Start' -> search for 'run' or just press 'run' right above shutdown/log off button to the right in the start window.

So there you have Run. Now to the list!!:

Tips: If your looking for something special, just press ctrl + f and search!

--

I'll add more and make it hopefully more easy when I get time, so stay tuned!
Thanks for reading and hope you enjoy it!?

annikk.exe - October 24, 2012, 5:27 am

Nice list bro :> My most commonly used ones are ncpa.cpl and mstsc :>
And notepad.

HF Amp - October 24, 2012, 5:30 am

Nice post, there is a shit tone of them that I didn't even know about, Thank.

?ikism? - October 24, 2012, 10:36 am

Thanks guys :)

Stay tuned for more!

Nomy - October 24, 2012, 11:55 am

very nice post, this must have took ages to make, nice one

-_1mm.de - October 24, 2012, 5:27 pm

a lot of the commands you can trigger faster

use the toolbar "Address" in the taskbar or the address bar from the ie or explorer

[\[img\]http://1cm.de/6.gif](http://1cm.de/6.gif)[\[img\]gif reload](#)

with this special toolbar you can

- access short infos via a shortcut -> type pm and get "pm* 0177 123456 .lnk"
 - access/trigger files via a shortcut and ENTER -> type pm* + ENTER for calling 0177 123456
- the + ENTER technique requiers "inline autocompliet for web addresses" ->cp -> internet options
-> advanced

* pm are the initials from a contact , OPTION add the compliet name to the .lnk file name, behind the tel #

Corso - October 25, 2012, 3:26 am

Nice list, though I navigate by run commands often - I even saw a few I didn't know prior.

Kira1994 - October 25, 2012, 11:25 am

wtf! really huge tn timer :D i really need it

stuartlaw - October 26, 2012, 1:51 am

Nice thread with somany usefull replies

Winterfell - October 26, 2012, 1:53 am

That is a cool list I got my Run and CMD blocked at school

?ikism? - October 27, 2012, 4:04 am

Thanks you guys :)

Nice to hear that u liked it.

rameleu - October 27, 2012, 7:43 am

Thank you for the list man, helped me a lot :)

nuk - October 28, 2012, 8:26 am

Wow, ...and I thought I knew them all :) Thanks for this share! :)

?ikism? - October 30, 2012, 1:03 pm

Thanks u guys, and your welcome! :-)

Sought - October 30, 2012, 1:06 pm

Thanks very much for the list, there are lots of things here I never knew existed but i don't ever use run unless I need to.

?ikism? - October 4, 2014, 12:26 pm

Bringing this up for hopefully help others out with some useful commands.

Hope you guys appreciate it :)

Aura - October 4, 2014, 4:22 pm

Nice copy/paste : <http://www.sevenforums.com/tutorials/5966-run-commands-windows-7-a.html>

These kind of threads aren't welcome here, even Omni said it.
