that's not work for me by the way thanks for sharing

that site i have try <http://www.cara-de-sonsa.com>

5NiP3R - October 25, 2012, 2:54 am

That's pretty cool so it's searches the page for plugins installed?

xx 0x0 xx - October 25, 2012, 2:55 am

you sure it's joomla or wordpress cuz it's working good with me but sometime i dont show any exploit at the website cuz it's not vuln

@5NiP3R

yeh and it show you how to exploit it from exploit-db.com :)

Smash_ - October 25, 2012, 2:55 am

Can you send me source code? Thanks.

sandeep1024 - October 25, 2012, 3:12 am

hmm i tried with two vulnerable WordPress sites but it failed for once.. in some case its work..in some it doesn't

@Smash_

im not allowed to share the source right now cuz im not the owner but when i can share it im gonna release it here

@sandeep1024

well maybe it's not vuln to the plugins at the script as i think

@5NiP3R

good work dude but please save your targets for your self cuz alot of newbish gonna try it and hurt them selves

waiting other comments from you guys
