Thread: [\[TUT\] 3D Photo Effect \[TUT\]](#)

Skyper - October 25, 2012, 5:44 am

I decided to make a tut on how to get something like this

[img]http://media.tumblr.com/tumblr_m0q4g4Juoz1qg8h61.png[/img]

Step 1: First open the picture you want to edit. Add the PSD that you want, just edit it until you like it. You can make it black and white, or whatever you like. I use this one:

[img]http://media.tumblr.com/tumblr_m0q3c4faj41qg8h61.png[/img]

Step 2: Then you have to duplicate your layer. (Layer > Duplicate Layer). Then go to Layer > New Fill Layer > Color Fill. Then choose the color you want for the 3D effect. I chose the color #D33090.

Step 3: Now you have something like this:

[img]http://media.tumblr.com/tumblr_m0q3ksOOwE1qg8h61.png[/img]

Set the Color Fill Layer to Multiply.

[img]http://media.tumblr.com/tumblr_m0q3raSSBU1qg8h61.png[/img]

Step 4: Now you have something that should look like this:

[img]http://media.tumblr.com/tumblr_m0q3vvFMh41qg8h61.png[/img]

Then go to your layers. Click on the Color Fill layer and the second layer. Click your right mouse and choose Merge Layers.

[img]http://media.tumblr.com/tumblr_m0q418Lwa51qg8h61.png[/img]

Step 5: Then click on the colored layer. Set the layer to lighten. Like this:

[img]http://media.tumblr.com/tumblr_m0q454Dlix1qg8h61.png[/img]

Now it should look like this:

[img]http://media.tumblr.com/tumblr_m0q47vW9Aq1qg8h61.png[/img]

Step 6: Now just drag the picture a bit with you mouse to the side you want, until you like it. I just do it > 5 times. Now it's finished. :)

I hope you understand everything. If you don't, post here.

victorieboy4.1 - October 25, 2012, 5:45 am

Thanks for this TUT, Keep the good work up! ;d

Nice to see a new member contributing.

Syberpro - October 28, 2012, 4:49 pm

You would need also blue to make it real 3D :P

HIGH PAID FELLA - *October 29, 2012, 5:02 am*

Nice work. And keep make tutorials. I gonna test it later. :)

muciex - *December 2, 2012, 1:12 pm*

Good work, very nice tutorial Man :)

CyberBeast1920 - *August 17, 2014, 9:03 am*

great tutorial mate! keep it up.. and stay HQ! :))
