Thread: [Scammed \\$14 by UID=1330834](#)

Owl City - October 27, 2012, 1:52 am

So I just got scammed by this user who claimed to be able to make free GP. When I contacted him on Skype (his name is talkingswag), he said I needed some GP first to do the trick. I didn't have much so he offered to sell me some; I accepted and paid him \$14 via PayPal. Afterwards, he ignored me and made pathetic excuses before signing off.

Name: Rekked (read NOTE below)

Skype Name: talkingswag

Scammed amount: \$14 via PayPal

Scam Thread: <https://hackforums.net/showthread.php?tid=2962077>

Scammer's PayPal: yadenyugi@hotmail.com

NOTE: In this thread (<https://hackforums.net/showthread.php?tid=2966193>), another user claims to have been scammed by the same Skype user 'talkingswag' although Rekked claims his Skype account was hacked. If this is true, then I have the resolved IP of 'talkingswag' which can hopefully help the moderators trace down which member of HF is committing both scamming me and RATting Rekked.

The IP is: Spoiler ([Click to View](#)) I was told by a Ub3r it'd be wise to delete the IP incase admins/staff delete the thread. PM me for the IP.

Do you have any proof that it his his Skype, on a post of his or PM did he ever mention that Skype?

If yes then post it and this will be a valid report then :)

Rekked edited his thread, then locked the thread. However, I'll give Rekked the benefit of the doubt. Therefore, I do believe Rekked when he says that his Skype was hacked. I'll PM him to get on this thread so he can confirm this and then hopefully we can solve who scammed me AND RATTED him and took his Skype.

I really don't want to believe it but this was my friend and he has been lying to me... I validate this thread.

Thanks for this; hopefully justice is dealt.
