Thread: [Sparky Java Updates](#)

m4dh4ck3r - October 27, 2012, 2:18 am

Just purchased New Domains,Will be added to the panel in 3hours.

If you have suggestions for more domains I'm taking them.

I'll be handling the sales of Sparky Java hereon.I'll create a new thread when the domains are back.

Khosti is no longer associated with Sparky Java.Do not PM him for support.

We host the JDB for you nearly nothing to set up just upload your file and you're ready to go. If it becomes unFUD We'll replace the .jar as soon as we can which shouldn't be more than 24 hours. You can use your own domains if you like and there is many more things going to be added soon enough.

Shoot me a PM,I'll give you a free trial Account ! :)

jobo1234 - November 8, 2012, 11:40 am

sent you a PM about getting my old account back
excited to see SJ was back up and running

PORTERA - November 29, 2012, 1:39 am

Hi, I am interested in a trial account, thank you for your answer

The Lucence - January 14, 2013, 6:59 pm

How can I buy this ? I wanna get it :)

prognpok - February 26, 2013, 11:01 am

I'd like to know more info about this. I added you on skype though. How JVB works? We update our file to the website, then the user gets infected just by surfing the website? Or some java stuff appears and user has to click "Run" or something? Is this Silent Java Drive By?

Thanks in advance.
