I don't think there has been announcement or even hints about a second season. However the manga is still ongoing I believe (well at least its past where the 6th movie finished) so there is a possibility that more movies will be made.

But yea, Break Blade was definitely an awesome anime. I especially loved the animation, but the plot was also really good as were the characters.

I may watch it, I dont know. I hope its as good as you say it is though.

Also OP, could you center your sig. You dont have to but it would make me feel better.

They tend to look better centered imo. :)

OT: This looks interesting. I'm going to add it to my list but it's not going to have a high priority.
