Serious notes though, the method is great, and once you know the whole thing off by heart, you'll be earning and slurping all day.

Dimsim, you need to maybe need to add a bit more photos. Like, I myself could understand it and work it out quite easily, but for brand newcomers, it would be quite help.

Overall, awesome stuff.

Yep, if you have any more questions, feel free to PM me. The vouches are proof to the awesomeness of this method :P

Each Slurpee takes around 30 seconds to generate; 10 seconds if you have VB.NET knowledge, 30 seconds if you don't. The e-book is extremely useful and you'll never have to pay again :)

Thanks for the wonderful vouch; you will literally never have to buy a Slurpee again. Today was 7/11 day and I didn't even bother getting a free Slurpee even though I pass it on the way from school to the train station because I get Slurpees almost every day :)

Anyway, thanks again and enjoy! :)

Does this involve social engineering or anything that can get you in trouble? If not, I'd probably buy it. It'll trick the pakis up at my local 7-11 for sure.

Nope, none at all; it's all done all the computer and it can even be automated. And LOL, I can relate; the Indian at South Yarra wants to kill me. But it's perfectly legal, so he suffers in pain.
