Hello,

I offer Free Runtime Crypting Service for all members . This Crypting Is Semi FUD (detected only by 2 Anti-viruses) and .Net 2 dependency (Works on WIN7/VISTA/95% of XP computers) .

Features [*]: Private Strings for each Crypt

.Netframework 2 or above dependency Fast & Secure

Free Service !! Detected only by 2 anti-viruses

Real RunTime crypt Can create Custom Assembly information & Custom Icon

Long UD Time Unlimited Crypts for free !!

T.O.S[*]:

If you can't Unlock Surverys Don't waste your time :((Unless you are l33t/UB3R , first l33t/ub3rs will get direct links)

* MediaFire link only for 0.5\$

Contact[*]:

Shoot me with PM and Post here , I will contact you with further details

Basic Instructions[*]:

If you are l33t/ub3r :

*Upload your server (after you check it works 100% and setup your own startup) , and disable the feature against virtualbox because I will test the server on it on uploadthis.me .

*Pm me with the link .

*There's Few options in the crypter , so i will check them all to ensure they suite with your server .

*I will PM you with the crypted server after i test in Sandboxie or virtual box.

*If you liked my service please leave me +REP

If you are ordinal member:

*Do the same as the L33t/ub3r instructions , but I will send you link on easy survey site , or you can request direct link for 0.5 , anyway, for the first 2 ordinal members who request this service , they will get direct link for free. :)

Satus : Pending , Working on re-fuding the stub .

For l33t/UB3R = Direct link , other members = Survey , these are my TOS & I think Survey Is free , no ?? Or if you don't want to wait You pay 0.5\$

Yes, Since you're l33T YOU will get it as a direct link :D . The instructions are very simple :

*Upload your server (after you check it works 100% and setup your own startup) , and disable the feature against virtualbox because I will test the server on it .

*Pm me with the link .

*There's Few options , so i will check them all to ensure they suite with your server .

*I will PM you with the crypted server after i test in Sandboxie or virtual box.

*If you liked my service , Please leave me +REP
