Thread: [Bi-Weekly UB3R/1337 Upgrade \(1\)](#)

**Detoxicate** - October 30, 2012, 12:35 pm

Okay, I've made a new thread now because I will also be upgrading one member to UB3R and one member to 1337 each month. I will be sending the money for UB3R upgrades to your paypal if you have been approved because I can't purchase UB3R for someone without being UB3R myself. I will personally purchase all 1337 upgrades myself though. I had to change how often I did these contests also because now I'm upgrading one member to UB3R AND one member to 1337 each month and I'm only being paid bi-weekly at the moment... I will be opening a thread for two weeks, and I will close the thread and decide who the two winners are. So, let's get this thing started and good luck to all participants!

Thread Post Date [10/20/12]

Thread End Date [11/08/12]

If you think you deserve to be upgraded to UB3R or 1337, simply post below and tell me a little about your HF history and why you think you deserve to be upgraded. I will personally be reviewing all posts and deciding who I think the best choice would be.

If anyone has any questions, please feel free to ask!

**Owl City** - October 30, 2012, 1:23 pm

Hi! I'm Dimsim1234 and I'm a newer member of HackForums. I've already been here for 2 months and I love it; I learn so much from it and people are never reluctant to give help whether this be regarding RATs, booting, VB.NET... even life.

While I was a heavy leecher at the start of my journey, I've gradually changed and decided that it's only right I give back to the community that's fostered my curiosity and helped me. Recently, I've started teaching those Alphas and Betas that get ignored when they ask 'How do I RAT' or 'What's a crypter'. I've also been hosting a pretty popular giveaway where all members who post and reach a basic requirement get free Super Slurpees. It's quote popular and don't leave anyone out.

Thread: <https://hackforums.net/showthread.php?tid=2977499>

Finally, although I might not deserve l33t more than the next person, I believe everyone is different and an individual case. If you were to find it in your heart to upgrade me, I would at the very least, be immensely delighted and grateful. I have never scammed and I never will. A dark underbelly of HF is the scammer community, and I've been scammed by a HF member for all the money I saved for l33t. Here is the report.

Thread: <https://hackforums.net/showthread.php?tid=2974685>

L33t would help me in my sales and giveaways threads as I would be able to edit the OP with updates and relevant info. I'd also be able to keep records of more things in my inbox. Having to delete my messages constantly is rather annoying, and this would mean I no longer have to sweep my inbox so often. I would also gain extra credibility and the ability to have a sexy sig <3

Thanks for your giveaway, it's extremely generous and good luck to all. Thank you for your time! :)

**Rally the Bulls** - October 30, 2012, 2:33 pm

What upgrade am I looking for? l337, if you couldn't tell. :P

Why do I deserve this upgrade? Well, I began here as a leacher in early 2008 when I was merely

an adolescent. After years of on-and-off browsing hackforums, I began contributing first with my knowledge of HTML/PHP/Javascript. After feeling the rush of giving back to the community, from that point on, I was interested in making all of my posts as high-quality as possible. Since then, I've given out steam accounts, written guides on games I play, and generally helped other users with issues; whether it be their hardware, a virus, general life problems, or slight financial aid. (nothing extravagant, I'm not claiming to have saved someone from homelessness)

Currently, I am doing monthly \$10 Riot Point (Points used to buy things in the online game League of Legends) contests. The way these work, is similar to this post actually. They post on my thread with a small bio, and why they deserve the RP. However, they also must link to one of THEIR OWN threads in the League of Legends forum that they find High-Quality. From there, the most HQ user wins. :)

By doing this, I am hoping to improve one of my favorite sections of hackforums, encouraging others to up their game a bit when posting.

What makes me stand out from the rest of the applicants? Well, quite frankly, I'm not going to sit here and try to bullshit you into upgrading me. Though I would love to be chosen, I'm a bluntly honest person, and I find no sense in it. There are many other HQ users that will apply for this I'm sure, but they don't have waffles. ;)

Off-topic: I'll be entering your contests, mate. Great thing you're doing here. Whether you upgrade me or not, when I do get it, it's users like you that will be getting rep from me.

Good luck everyone, and congrats to whoever the winner ends up being. :P

**Defend.** - October 30, 2012, 3:06 pm

What do I want to upgrade to? I want to upgrade to Ub3r.

What have I done on HF? So far on HF, I have done one giveaway last week which I will continue to do, I have a shop opened with a partner, and I try to help out the people as much as I can. Normally, I post in the Xbox section since I am a gamer. I have been participating in the events going on in HF, like the [October Chess Tournament](#) and I am participating in the November one as well. Also, I have been in the OMGPOP pool tournament. These are just showing that I am an active user on HF, and I will continue to be as much as possible! Also, I have been scammed twice by users that took advantage of me for not being a l33t user(at the time) and I have opened two scam reports on both of them which were successful and made the HF community aware of these bad users.

**believeme625** - October 30, 2012, 6:58 pm

What upgrade do I want to have? : I am looking for L337 .

Why do I deserve this upgrade? : I myself don't think I deserve this upgrade but if making the forum

more lively and having more friendly people coming in would make me deserve this then I think I do. I am here for fun, making friends, helping each other in terms of hacking of course and I am just a step away on making a give away.

What makes me stand out from the rest of the applicants? : Well if we all stand up, I guess I will be wearing heels or stand into a chair so I could stand out. Lol ~#YOLO #IDGAD #HackForums

Take Care :)

Application.

Short Introduction:

Hello my name is Liam aka Under Suspicion. I have been on the forum a while now and was introduced here by a close friend named Braeden.

Why?

I am trying to be a very HQ user. I think I deserve L33T because I am always trying to help people and do whatever I can to be able to help them. I also strive to learn, at the moment I am trying to learn Python. Anyway I hope you choose me to be a L33T since I am not allowed online money thus cannot buy it myself. I try to post everyday and with High Quality replies I would like to expand my knowledge into other L33T Only sections in which I can then further help people.

Thanks For Reading.

**Thomas446** - October 31, 2012, 5:13 am

Why do you deserve to be upgraded over all other applicants?: I have been an HF member for only 2/3 a year, but i think it is a great forum. The only bad part is it is so sad when i see a HQ member with 0 rep, and a TON of LQ people getting rep for "Welcome to HF!". If i was L33t, i would give +rep to those HQ members. I always am helpful to people, and i don't ask for too much. I have a few HELPFUL THREADS, but I have A LOT of helpful posts. Also, People listen to l33t. I was scammed out of a l33t contest. If i was l33t, i could have neutral repped that person as a scammer. I also have done a few contests of my own. All together, I think I am a pretty HQ member, and I deserve l33t.

Also, Thanks for the contest!

What upgrade am I looking for? L33t

Why do I deserve this upgrade? I would not give you sample links of my work/help that I have provided to the community. It's been good 5+ months that I am really working hard to do my best for HackForums. And I believe; my work should speak for itself.

Let it be the Lounge, giving suggestions/ideas for the betterment of HackForums in the 'Suggestions' section, participating in healthy discussions ; I have tried to be active in every section that suits/interests my knowledge areas. Not only this; I am pretty much in to giving quality advises

to our members, it can be an issue that they are facing on HackForums or some personal problems pertaining to their life (Only if they are willing to discuss it). Additionally, being in to the technical field, I really feel excited in solving technical issues of our fellow members. And I must say, I have solved many such technical queries here..

Why do you deserve to be upgraded over all other applicants?

All the time i've been here,i tried to be as much as hq and dedicated as i can,offering help in other section of the forum and helping at writing and correcting various tutorials especially on website and forum hacking sector.Though,the most serious problem is that i don't have the funds to pay for the Ub3r because of my economical problem.I am sure that the ub3r will be a help for not stoping this difficult job for me in this community.There are also other more notably membes than me that deserve this gift.I wish good luck to all contestants.

I hope the luck is on my side.I have never scam any member in my life because i respect them all. Thanks OP.

Thanks for doing this! I don't have have a shot at this buy hell if you don't shoot, you miss for sure.

Why do I deserve l33t?

I've helped many beginners however I can, setting up RATs, VPNs. I also have learning 3 members of HF the basics of HTML. I have 0% warning and I never troll on HF.

Becoming l33t would help me a great deal in contributing to the community. It would make it a whole lot easier to use the PM system. The main reason I want to be l33t is to use the l33t and ub3r section. It would help me a great deal in learning new skills. I've been working very hard to educate myself. But let's be honest, there is always someone who deserves it more than me.

First of all thanks for this contest!

My name is NyT3z, I'm a member since a half year and I'm very active in the monetizing section. I  
was also active in the coding section, to learn coding and to help other members to learn coding  
espacially Java and android development. I also want to help the people with their cell phones and

maybe help them to root them.

\*I help the people to get some money for free in my threads.

If you decide that I deserve this upgrade I could help the people better then now, because I have more options and maybe the people trust me more, when I'm an upgraded member.

I know I haven't that much posts but this all could change when I'm L33T.

But I have no scam post and I'm gentle to all members. When I'm L33T i can give +rep to all the nice members Maybe I could do some great giveaways and stuff like that.

I would get HQ and I will help the whole community

• What upgrade am I going for?: Ub3r :)

Why do I deserve this?:

I currently don't have the money to be able to purchase this myself at this minute, I have always tried to help everyone that has asked me for it on this site and I hope to continue to do so :)

• What have I done for the community?

I have offered my graphic services on the site and helped people with whatever they have asked me to help them with, this can have ranged from giving them accounts on websites that they want and also just generally giving them advice and guidance either about HF or real life issues

• Additional Stuff:

I always try to help people as much as possible and I don't 'troll' anyone, no matter what the circumstance. I have never had any negative rep since I joined this forum because I always ensure that I do not offend or insult anybody with my posts. I also have a 0% warning level, showing that I

have been abiding by the rules.

Thank you for doing the contest man :) Good luck all!

Hey OP, im m1n3rman, England!

I enjoy HF as much as anyone else and I wanted to upgrade a while ago but i have no way of paying for l33t, this would mean alot to me and i will find a way to pay you back.

So far i've contributed 2 OG emails and helped +Awesome when his website was hacked and everything deleted.

I think of myself as fairly High Quality but thats me and everyone has their own opinions, i hope you find me High Quality enough to reward me with l33t.

Thanks alot OP for the contest and Good Luck to the winners

Regards,

- W

Hello [Detoxicate](#).

Link to my profile: [Here](#).

I am entering this wonderful contest to win an upgrade from l33t to ub3r.

I would say that I am a very active, high quality user & I spend most of my time helping members on supportforums.net, or helping members on here and many other websites with any problems they have. This includes; hacking, Youtube, life, relationships, family, money issues, music etc..

I also spend most of my time making music & judging battles within the [Rap Battles and Hip-Hop section](#) of the site, as I'd like to help other members improve so that everyone can have more decent music to listen to.

Some of my threads can be found here:

[?Potential's 1st HUGE GFX Pack \[Gamefront\]\[2 PART\]\[1.1GB\]](#)

[\[HOW-TO\] Get Free Unlimited Xbox Live 48 Hour Trial Codes](#)

I'm always kind to everyone, I never discriminate members because of they're user-group, we are all the same, it's just that some people can afford upgrades & some cannot.

I upgraded to l33t within one hour of signing up to Hackforums as I knew I would love it here, since then, my family have been having deep financial issues which has lost me the privilege of having money to spend freely & almost forced my parents to cancel our broadband subscription which would have been one of my very worst nightmares, considering I don't go out much anymore due to all the crime in my city.

I would extremely appreciate the upgrade from you as I cannot afford to buy it myself.

I have been approved for ub3r which means it would be completely safe for you to send the funds & me being upgraded successfully. Also, you will definitely be the very first person that I'll be giving +3 rep to, you definitely deserve it!

Proof of the approval can be found here: Spoiler ([Click to View](#))

Thank you very much for this extremely generous giveaway, I wish everyone the best of luck in their future. ?

Well I for one, want to start off and say I really appreciate you giving all of us the opportunity and It's very kind of you.

I wouldn't say I "deserve" this upgrade but I can say that for the past year and 4 months I have changed for the better due to the intelligent and wise community members we have roaming in these forums. In the past few months I myself have sent 2 appeals to request Ub3r approval and unfortunately I was not accepted. Back then Ub3r meant something else to me. I wanted to look more important, feel more in charge with respect but not too long ago I lived up to see through those thoughts and become ambitious to provide and share quality discussions with people on Hackforums. This transformation made a difference and when I applied for Ub3r again, just recently I was approved! As of yet I cannot seem to come up with the spare money to pay for it but I am happy to say HF has made me a better person on the Internet and in reality. I have learned to understand, respect and lose my ignorance in a whole (I hope I have xD ). I can also say I don't plan on going anywhere as of yet and look forward to watch the forum evolve. Hopefully for the better as well.

Thank you for taking the time to read these, especially mine. ?

Upgrading to UB3R

Hello, I am very happy you upgraded my bro Red\_hat/Phaze/here2hack lol. But, anyways now I need some help ?. Here's some of my history - I started with hacking in online game clients from a forum I was on that taught me how to. I ended up searching up some stuff on google one day as I found 'hackforums'. Sense, I have been here I have learned Website & Forum Hacking & have learned so much and am learning PHP right now. I have hacked a couple big forums & plan to go on with my hacking career. I use to have a job as a Pentester for a site called - <http://www.aplus.net/> - I quit, as they dont listen. I really enjoy hacking into websites & getting DB's & plan on getting even better at pentesting.

I really hope I win, Thanks so much. You are a really nice person & would love if you considered this. Thanks so much OP. ?
