I would be grateful even if you just provide me the hosting.

I've been looking to start a website for a couple of months right now. I have the domain, team,etc. ready just do not have the hosting. So if you provide me the hosting I will be grateful for it.

I will tell you what type of a site is it if you want via PM as I would not like to disclose it publicly. :)

What domain I want?

The domain I would like would have to be "da-beats.biz".

Why I want this?

So I can have a website devoted to music. I would host songs, contests, tutorials, and a "show off your beat" feature which will display the winning beat of the week at the top of the site until the next winner is chosen.

Is Cryptic a Sexy Beast? (Y/N) Of course you are. (Haven't been on imtiarx for a while due to my laptop charger breaking, I'll be more active now).

Thank you very much! ?
