Thread: [\[FACEBOOK\] 100-300 LIKES AUTOPILOT \[FREE\] \[NODOWNLOAD\]](#)

Fraile - November 2, 2012, 10:04 am

I did not make this 100% credits to Likealoo.

It gives you 100-300 likes on your Facebook post

Quick guide:

1. Go to facebook and in the right hand corner press the down arrow button and press Account Settings
 2. Press the Subscribers tab and enable Subscribers.
 3. Visit this link <http://adf.ly/EIHs4> (Adf.ly because I'm saving money for L33T)
 4. Press Click Here And Allow Permission To xPeria To Get Access Token, Then Copy Paste The URL Of Success Page Below
 5. Copy the link of the page that says Success and paste it in to the bar and press submit
 6. This bit is easy you just need to choose the post and watch as you gain loads of likes (Everyone else can see the likes too but not where they came from)

I GOT AN error saying

ERROR : Non Public Privacy
Privacy Of The Requested {Object} Is Not Public

why?
